

# Support for macOS Mojave

Here you can find out how to get drivers and other Epson software for your Epson product that work with macOS Mojave.

- Check your Epson product CD to see if it already contains drivers for macOS Mojave. If the CD indicates support for macOS Mojave, follow the instructions that came with your Epson product to install the drivers and other software.
- If your Epson CD does not indicate support for macOS Mojave, please visit this link "<http://download.ebz.epson.net/dsc/search/01/search/searchModule>" to obtain new drivers as they become available. Do not insert your Epson product software CD into your computer at this time.

## **FAQ**

### 1. Question

The UI of Epson driver doesn't show correctly with Apple's apps, e.g. Preview.app

#### Answer

This is due to the OS specification change. The display of the driver is not accurate, but printing is possible.

### 2. Question

Photo Does not show on the photo list.

#### Answer

This is due to User Data Protection and you have not allow the app to access the photo. Please allow access to photos from the settings below.

1. Goto System Preferences > Security & Privacy > Privacy > Photos > Epson Photo+
2. Select "Photos" and check "Epson Photo+"
