Notes:
*1 There is no problem with the video display in Moverio side, but the display on the smartphone side can not be shown(Operation in the smartphone side is possible). You can awake your smartphone by putting it back to sleepmode or restarting your smartphone.
*2 It will be played on the browser, not on DMM.com Video app.
*3 This is the test result in "Terminal mode"

Please turn off "Developer option" in smartphone side when you connect Moverio BT-30C.

If the smartphone Model Name is the same but the Mobile Carrier is different, the Connectivity test result may be different.
The above Connectivity test result, please check smartphone Model Name and Mobile Carrier as a set.

JP : Japan
CN : China
TW : Taiwan
US : America
KR : Korea

OK : Operate properly
(OK) : Operate properly with conversion adaptor
NG : Do not operate
(NG) : Do not operate even with conversion adaptor
-Not checked (No Port, No App to check, etc.)

Notes:

*1	Microphone recording is possible, but noise may be added to the recorded audio
*2	It is possible to view the video, but not output audio from the BT-30C (LG V20)

Please turn off "Developer option" in smartphone side when you connect Moverio BT-30C.

If the smartphone Model Name is the same but the Mobile Carrier is different, the Connectivity test result may be different.
The above Connectivity test result, please check smartphone Model Name and Mobile Carrier as a set.

JP : Japan
CN : China
TW : Taiwan
US : America
KR : Korea

OK : Operate properly
(OK) : Operate properly with conversion adaptor
NG : Do not operate
(NG) : Do not operate even with conversion adaptor
-Not checked (No Port, No App to check, etc.)
