

# Creating Special Labels

## Creating Labels for Patch Panel

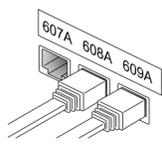

You can create the optimal labels for your patch panel by setting the label length and number of blocks.

- Press **[F6]**.
- Select the length type with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Blocks".  
Blocks: Sets the length by block length.  
Label: Sets the length by label length.
- Enter the blocks length and then press **[OK]**.  
Setting range: 0.25 to 30 cm
- Enter the blocks number and then press **[OK]**.  
In this example, we will enter "3".  
Setting range: 1 to 50
- Select the type of separator with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Line".
- Select the orientation with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Hori.".
 

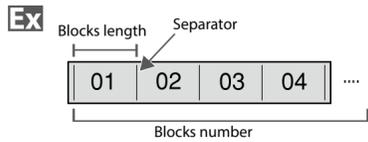

Hori.	607A	608A	609A
Vert.1	607A	608A	609A
Vert.2	607A	608A	609A
- Enter the text.  
You can create labels with sequence numbers.  
For details, see "Creating Labels with Block Sequence Numbers Assigned"
- Press **[F6]**.

## Creating Labels for Block-66

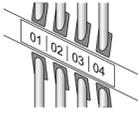

You can create labels for Block-66 so that large numbers of connectors can easily be identified.

- Press **[F6]**.
- Select the length type with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Blocks".  
Blocks: Sets the length by block length.  
Label: Sets the length by label length.
- Enter the blocks length and then press **[OK]**.  
Setting range: 0.25 to 30 cm
- Enter the blocks number and then press **[OK]**.  
In this example, we will enter "4".  
Setting range: 1 to 50
- Select the type of separator with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Line".
- Select the orientation with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Hori.".
 

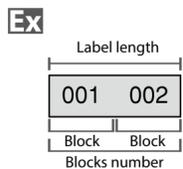

Hori.	607A	608A	609A
Vert.1	607A	608A	609A
Vert.2	607A	608A	609A
- Enter the text.  
You can create labels with sequence numbers.  
For details, see "Creating Labels with Block Sequence Numbers Assigned"
- Press **[F6]**.

## Creating Labels for Faceplate

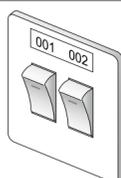

Text can be automatically placed at the center of a block. This enables you to easily create a label suitable for the size of the area where it will be affixed.

- Press **[F6]**.
- Enter the label length and then press **[OK]**.  
Setting range: 1 to 99.9 cm
- Enter the blocks number and then press **[OK]**.  
In this example, we will enter "2".  
Setting range: 1 to 50
- Select the orientation with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Hori.".
 

Hori.	001	002	003
Vert.1	001	002	003
Vert.2	001	002	003
- Enter the text.
- Press **[F6]**.

## Creating Barcode Labels

**MEMO**  
• You may not be able to add a barcode depending on the label type you create.  
• Only up to two barcodes can be inserted in one label.

Supported barcode types:

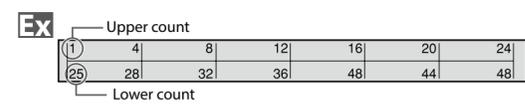

EAN-8, EAN-13, CODE128, CODE39, QR CODE, ITF, CODABAR, UPC-A, UPC-E

- Press **[F6]**.
- Select an item with **[<] / [>]** and press **[OK]**.  
Move on to the next options until the setting is complete.
- Enter the alphanumeric characters for the barcode and then press **[OK]**.
- Press **[F6]**.

## Creating Labels for Punch Block

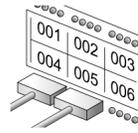

You can create labels to identify at a glance the numbers for the wires or pins connected to a punch block.

- Press **[F6]**.
- Select the blocks type with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "4pairs".  
Blank: Creates a table of two rows and one column.
 

1	4	8	12	16	20	24
25	28	32	36	40	44	48
- Select the text type with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Pins".
 

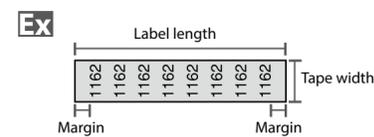

1	4	8	1	2
25	28	32	7	8
- Enter the upper count and then press **[OK]**.  
In this example, we will enter "1".
- Enter the lower count and then press **[OK]**.  
In this example, "25" is entered automatically.
- Enter the label length and then press **[OK]**.  
Setting range: 1 to 99.9 cm
- Press **[F6]**.

## Creating Labels to Wrap Around Cable

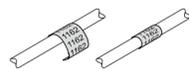

You can repeatedly print text so that it can be seen regardless of the angle from which the cable is viewed.

- Press **[F6]**.
- Select the length type with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Length".  
Dia: Sets the length by cable diameter. (Setting range: 0.25 to 15 cm)  
Length: Sets the length by label length.
- Enter the label length and then press **[OK]**.  
Setting range: 1 to 99.9cm
- Select On or Off of repeat text with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "On".
 

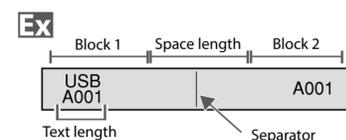

On	1162	1162	1162	1162	1162	1162
Off	1162					
- Select the type of margins with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Long".  
Tape/3: Sets margins that are a 1/3 of the tape width.  
Tape: Sets margins that are equal to the tape width.
- Enter the text.
- Press **[F6]**.

## Creating Labels to Wrap around Cable like a Flag

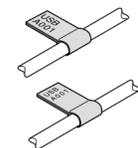

This label is useful for differentiating cables because the flag portion of the label wrapped around the cable is easy to see.

- Press **[F6]**.
- Select the setting method of space length with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Length".  
Dia: Sets the length by cable diameter. (Setting range: 0.25 to 15 cm)  
Length: Sets the length by space length.
- Enter the space length and then press **[OK]**.  
Setting range: 0.25 to 30 cm
- Enter the text length and then press **[OK]**.  
Setting range: 0.25 to 30cm
- Select the type of separator with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Line".
- Select the orientation with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Hori.2".
 

Hori.1	USB A001	USB A001
Hori.2	USB A001	A001
Vert.1	USB A001	A001
Vert.2	USB A001	A001
- Enter the text of block 1 and then press **[Enter]**.
- Enter the text of block 2.
- Press **[F6]**.

## Creating Labels with Symbol

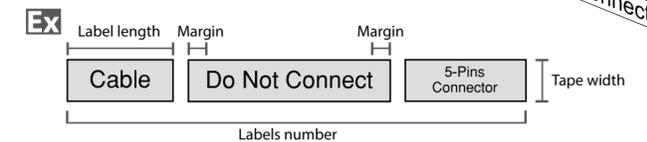

- Press **[F6]**.
- Select a category with **[<] / [>]** and press **[OK]**.
- Select a symbol with **[<] / [>]** and press **[OK]**.
- Press **[F6]**.

**MEMO**  
For available symbols, see "Symbol List" on the separate sheet.

## Creating Multiple Labels at Once

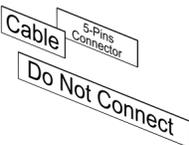

You can create many labels at once.

- Press **[F6]**.
- Select the label length with **[<] / [>]** and then press **[OK]**.  
Auto: Automatically adjusts the label length depending on the length of text.  
Set: Sets the label length.  
Setting range: 1 to 99.9 cm
- Enter the labels number and then press **[OK]**.  
In this example, we will enter "3".
- Select the type of margins with **[<] / [>]** and then press **[OK]**.  
Tape/3: Sets margins that are a 1/3 of the tape width.  
Tape: Sets margins that are equal to the tape width.
- Select the orientation with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Hori.".
 

Hori.	012
Vert.1	012
Vert.2	012
- Enter "Cable" and then press **[Enter]**.  
Similarly for other labels, enter text and press **[Enter]**.
- Press **[F6]**.

## Creating Labels with Dedicated Tape

### Die-Cut label

Use the dedicated Die-Cut label. You can print on precut Rectangle, Oval, and Circle.

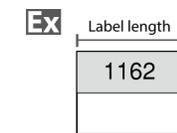

- Select the orientation with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "Hori.".
 

Hori.	ABC
Vert.	ABC
- Enter the text.  
You can adjust the position of the text.  
For details, see "Changing the Printer Settings."
- Press **[F6]**.

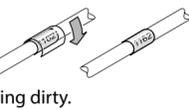

### Self-Lamination Overwrap

Use the dedicated Self-Lamination Overwrap. This label tape comes with transparent film. The film can be wrapped around the label to prevent it from getting dirty.

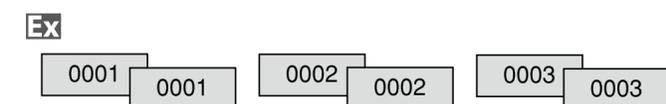

- Enter the label length and then press **[OK]**.  
Setting range: 1 to 99.9 cm
- Enter the text.
- Press **[F6]**.

## Creating Sequentially Numbered Labels

The number is automatically incremented each time a label is printed. Up to four digits including numbers (0 to 9) and alphabet letters (a to z and A to Z) can be entered.

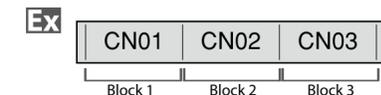

- Press **[F6]**.
- Enter the start value of the sequential numbers and then press **[OK]**.  
In this example, we will enter "0001".
- Select the number of repetition with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "2 times".
- Press **[F6]**.
- Select "Print copies" with **[<] / [>]** and then press **[OK]**.
- Enter the number of print copies and then press **[OK]**.  
In this example, we will enter "6".
- Select "Start print?" with **[<] / [>]** and then press **[OK]**.  
Printing starts.

## Creating Labels with Block Sequence Numbers Assigned

You can assign sequential numbers to blocks. Up to four digits including numbers (0 to 9) and alphabet letters (a to z and A to Z) can be entered.

Create the blocks in advance. In this example, we have created three blocks.

- Press **[F6]**.
- Enter the start value of the sequential numbers and then press **[OK]**.  
In this example, we will enter "CN01".  
Sequential numbers are automatically assigned to block 2 and block 3.
- Select the number of repetition with **[<] / [>]** and then press **[OK]**.  
In this example, we will select "1 time".
- Press **[F6]**.

# Customizing Labels

## Setting the Format and Style (Edit menu)

You can decorate your label by setting the following.

**MEMO**  
The setting items displayed when you press  differ depending on the label type you create.

**Layout**  
Left, Center, Justify, Right  
Adjusts the layout when multiple lines are used.

**Frame & Table**  
Decorates the text with a frame or inserts a table.

**Separator**  
Decorates the text of a die cut label with a frame.

**Style**  
Outline, Normal, Gray, Shadow, S+O  
Applies a character style to text.

**Char. spacing**  
None, Narrow, Normal, Wide  
Sets the inter-character spacing.

**Border & Line**  
Strikeout, Underline, None, Border, Round brdr, Shading, Brdr mesh, Round mesh  
Applies border, underline, shade etc. to text.

**Char. Width**  
Smaller, Small, Narrow, Normal, Wide  
This allows you to change the width or height of characters.

**Background**  
None, 1 Wave, 2 Diamond1, 3 Diamond2, 4 Snow, 5 Flower, 6 Star, 7 Cards, 8 Arabesq., 9 Mesh, 10Dotted  
Sets the background pattern.

**Bold & Italic**  
Italic, Normal, Bold, B+I  
Changes the text in bold or italics.

**Length**  
This setting is the same as when  is pressed.  
 4 "Setting the Label Length"

**Margins**  
This setting is the same as when  is pressed.  
 4 "Setting the Margins"

**Orientation**  
|AB|A , |< ▢|, |▢ ▢|  
Sets the orientation of the text.

**Font size**  
This setting is the same as when  is pressed.  
 4 "Changing the Font Size"

**Font**  
This setting is the same as when  +  is pressed.  
 4 "Changing the Font"

**Color Reversal**  
On, Off  
When set to "On", creates label with the text color and tape color reversed.

### Procedure for setting

- Place the cursor.**  
Place the cursor on the left of the characters to which you want to apply a function.  
If you apply the function to a specific line or block, confirm that the cursor is in the line or block.
- Press .**  
Example: to apply "Bold & Italic"
- Select "Bold & Italic" with  and press .**
- Select "B + I" with  and press .**
- Select an area to which you want to apply the function with  and press .**  
When "Character" is selected, the function is applied to all characters on the right of the cursor.

## Changing the Font Size

You can change the font size of text or a block line by line. Among the preset setting items, select one with the same number of lines as that of the text or block you want to change.

**MEMO**  
You may not be able to change the font size depending on the label type you create.

- Press .
- Each time you press , the font size changes.

## Changing the Font +

Changes the font type of text.

- Press  + .
- Each time you press  + , the font changes.

SansS.  ABC      Roman  ABC

## Changing the Text Orientation +

Changes the text orientation to vertical or horizontal.

**MEMO**  
You may not be able to change the text orientation depending on the label type you create.

- Press  + .
  - Each time you press  + , the setting switches between "Horizontal" and "Vertical".
- Horizontal  ABC  
Vertical  < ▢ ▢
- When creating "Patch Panel", "Block-66", "Faceplate", or "Mix-Len"**
- Press  + .
  - Select the orientation with  and press .
- Hori.  ABC  
Vert.1  < ▢ ▢  
Vert.2  ABC

## Setting the Label Length

You can set the length of label or block.

**MEMO**  
• This cannot be set for a die cut label.  
• When creating a special label, you can set the length again.  
Setting items for special label is displayed after pressing .

- Press .
- Select the setting method of the length with  and press .

Auto: Automatically adjusts the label length depending on the length of text.  
Set: Sets the label length.  
Setting range: 1 to 99.9 cm

- Select the alignment for the text with  and press .

Left, Center, Justify, Right

## Setting the Margins

Sets the left and right margins.

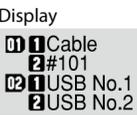

**MEMO**  
You may not be able to set the margins depending on the label type you create.

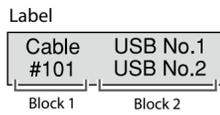

- Press .
- Select the type of margins with  and press .

Tape width /3: Sets margins that are a 1/3 of the tape width.  
Tape width: Sets margins that are equal to the tape width.

## Adding Block

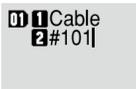

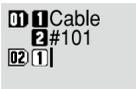

By dividing text into blocks, you can change the style and the number of lines block-by-block.

Display  Cable #101 USB No.1  
USB No.2

Label  Cable USB No.1  
#101 USB No.2

Block 1      Block 2

- Press .
- A new block is started from the character next to the cursor.

 Cable #101|      →       Cable #101  
#101

## Saving Frequently Used Labels

By saving frequently used labels, you will be able to easily recall and print from them next time.  
Up to 100 labels can be saved.

### ■ Saving a label

- Press .
- Select " Save " with  and press .
- Select a registration number with  or the number keys and then press .

The registration confirmation screen appears.

- Confirm the registration number and then press .

### ■ Recall the saved label

- Press .
- Select " Recall " with  and press .
- Select a registration number with  or the number keys and then press .

The recall confirmation screen appears.

- Confirm the registration number and then press .

### ■ Printing the saved label

You can select multiple files and print them at once.

- Press .
- Select " Print " with  and press .
- Select a registration number with  or the number keys and then press .

By continuously selecting registration numbers and pressing , you can select multiple files.

- Select " Print Start " with  and press .

Printing starts.

**MEMO**  
You can also select " Print Start " by pressing  + .

### ■ Deleting the saved label

- Press .
- Select " Delete " with  and press .
- Select a registration number with  or the number keys and then press .

The deletion confirmation screen appears.

- Confirm the registration number and then press .

## Utilizing Print Functions +

### ■ Enlarge print

You can create a label that is larger than the width of a single label.  
Print the created content separately on multiple labels and then put them together to use as a single label.

- Press  + .
- Select " Enlarge print " with  and press .
- Select " \*2size " with  and press .
- Select " 2/2 " with  and press .
- Select " Start print? " with  and press .

Printing starts.

**MEMO**  
The function remains enabled even after printing. To disable the function, select "Off".

### ■ Mirror print

On  ABC      Off  ABC

- Press  + .
- Select " Mirror print " with  and press .
- Select " On " with  and press .
- Select " Start print? " with  and press .

Printing starts.

**MEMO**  
The function remains enabled even after printing. To disable the function, select "Off".

### ■ Print copies

 ABC     ABC     ABC ...

- Press  + .
- Select " Print copies " with  and press .
- Enter the number of print copies and then press .
- Select " Start print? " with  and press .

Printing starts.

**MEMO**  
The function remains enabled even after printing. To disable the function, set the number of print copies to "1".

## Changing the Printer Settings +

### Auto cut

Auto cut:  
Sets whether or not to cut automatically.

Half cut:  
When "Auto cut" is set to "On", the function "Half cut" for precutting just the label part to make the backing paper easy to peel off can be set.

### Print density

Sets the print density.

### Drop stop

This function is useful for affixing consecutively printed labels one at a time.  
Select "On" to avoid a printed label from dropping. A printed label stays at the tape eject slot.  
When printing multiple copies, printing of the second or later labels starts each time you remove a printed label.  
This function is only available when the label length is 28 mm or more, "Auto cut" is set to "On", and "Half cut" is set to "Off".

### Die-Cut pos

Adjusts the text position of die cut label.  
Width pos: Adjusts the vertical positioning of text.  
Length pos: Adjusts the horizontal positioning of text.

### Backlight

Sets the display backlight to On or Off.

### Language

You can select the language shown on the display from the following:  
Dansk, Deutsch, English, Español, Français, Italiano, Nederlands, Norsk, Português-Br, Português-EU, Suomi, Svenska, Türkçe

### inch:cm

The unit of length used to indicate the label size can be switched between inch and cm.

**MEMO**  
Version: To make sure the version number that has been installed in the printer.

### Procedure for setting

- Press  + .
- Select the desired function with  and press .
- Select the desired item with  and press .
