

Compact and sleek, the new tank design is integrated into the printer to allow the printer to have the smallest footprint\* amongst all brands of ink tank printers that use bottled ink refills. Enjoy spill-free refilling with individual bottles which have unique nozzles that fit only into their respective tanks. Auto-duplex printing\*\* affords users up to 50% savings on paper costs by printing automatically on both sides of paper. Remain connected with the option to print wirelessly over network or directly from your mobile devices using Wi-Fi Direct. Rejoice in exceptional print quality with the use of pigment black ink which produces water and smudge-resistant printouts.

<sup>†1</sup> Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode, 10 x 15 cm photo print speed when printed on Epson Premium Glossy Photo Paper. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1 Black Text      #2 Black Text and graphics      #3 Photo 4R (4 x 6 ")

<sup>†2</sup> When printed on Epson Premium Glossy Photo Paper.

<sup>†3</sup> Otherwise 3mm top, left, right, bottom.

<sup>†4</sup> Default mode in accordance with ISO7779 for MFPs.

<sup>†5</sup> In accordance with ISO 24711/24712. Actual yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. A variable amount of ink remains in the cartridges after the "replace cartridge" signal. Part of the ink from the first cartridges is used for priming the printer. Ink is used for both printing and print head maintenance. All inks are used for both black and colour printing.
