

Compact, High-Speed A3 Mono Printer for Efficient Workplaces.

The Epson WorkForce Enterprise AM-M5500 is a fast, scalable A3 Mono printer ideal for compact, modern workplaces. Powered by Heat-Free Technology, it reduces power consumption by up to 85%* compared to laser printers. With a print speed of 55ppm, it boosts productivity and lowers operational costs through fewer part and consumable replacements. The printer also offers expandable finishing options, making it highly versatile. Its multifunction capabilities and scalability are perfect for businesses seeking efficiency, cost savings, and eco-conscious solutions.

ENGINEERED FOR GOOD

New A3 Mono Business Inkjet

Offices can maximise productivity with high-speed printing of 55 pages per minute, even in duplex mode.

Heat-Free Printing

Thanks to Epson Heat-Free Technology, it requires lesser power to operate and fewer frequent parts replacements are needed.

Versatile Office Productivity

GO GENUINE

Boost office efficiency with the versatile AM-M5500, featuring an intuitive interface and a versatile Inner Finisher for stapling, shift sorting, and more.

Testing was commissioned by Epson and conducted by Keypoint Intelligence. One specific model was selected from color laser multi-function printers in the 65-70ppm class. Epson WorkForce Enterprise WF-C21000 with 100ppm (equivalent model in Europe was used during the evaluation). This data is as of September, 2020. Devices were tested in default mode as per Keypoint Intelligence's proprietary standard energy consumption test methods. Calculations were based on a weekday workload of 2 x 4 hours printing + 16 hours in sleep/standby mode, and weekend energy use of 46 hours in sleep/standby mode. A total of 89 pages of workload test pattern using DOC, XLS, pPI, THM, PDF files and Outlook email messages were printed six times in each 4-hour printing period. Replacement cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. All ink colours are used for printing and printer maintenance, and all colours have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer setup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal. For more information, visit www.epson.com.sg/inkinfo.

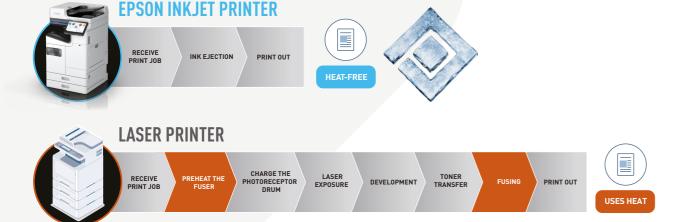

A3 Mono Mid-Range Printing Redefined for Exceptional Compactness and Speed

PrecisionCore Heat-Free Technology

PrecisionCore is the next-generation inkjet printhead technology driving Epson's inkjet resolution. It merges advanced key component technologies, state-of-the-art MEMS* fabrication and high-precision assemble processes honed over decades.

Epson's proprietary Micro Piezo inkjet technology doesn't use heat in the ink ejection process, and it's this Heat-Free Technology that separates our printers from the competition. Epson's Heat-Free printers does not require heat in the ink ejection process. Instead pressure is applied to the Piezo element, which flexes backwards and forwards firing the ink from the printhead.

*MEMS (Micro Electro Mechanical System): Devices processing mechanically driven elements, manufactured through the application of semiconductor processing technology.

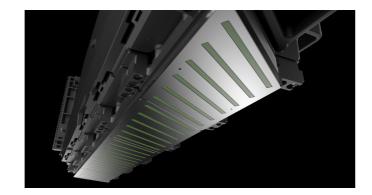

PrecisionCore MicroTFP Print Chip

MicroTFP print chips are the core element of PrecisionCore Heat-Free Technology. By achieving higher precision and greater miniaturisation in Epson's advanced thin film piezo (TFP) technology, the basic performance of this printhead module has been radically improved, and application to a wider range of uses made possible.

The thin film piezo element that drives ink ejection is approximately 1 micron thin (one-hundredth the thickness of a human hair). By closely controlling the voltage applied to such piezo elements, it is possible to fire up to 50,000 shots of ink per second from a single nozzle, to precise positions and in the necessary quantities.

PrecisionCore Linehead

By optimally arraying 30 of these MicroTFP print chips in a diagonal configuration, Epson has developed a compact linehead that boasts about 28,000 active nozzles. This size-conscious core device contributes to reduced space requirements of the product itself, and successfully enables high-speed performance of printing up to 55 pages per minute, within a compact design.

Stress-Free Operability

Epson WorkForce Enterprise AM-M5500 mono printer is perfect for the office, reliably delivering prints at high speeds of up to 55ppm while occupying minimal space. The printers come with space and user-friendly configurations such as a hassle-free front-loading design, transparent ink window, and customisable layout.

New Paper Path Design for Consistent High-speed Printing in Compact Footprint

The new A3 mono linehead inkjet printer series realises a simpler C-shaped paper route path to deliver efficient and consistent high-speed printing. It can print up to 55 pages per minute in both simplex and duplex printing while keeping a compact printer design.

Reduce Downtime

Easy front access to both the printer's ink cartridge and maintenance box ensures fast, hassle-free replacement and maximum printer uptime.

Easy refill of paper with these cassette trays that can be opened smoothly and effortlessly.

Robust Security Features

Confidential Job

Prevent leakage of confidential information by unattended prints left on the printer by setting a PIN for release on the panel.

IPSec / IP Filtering

Transmit data securely with encryption with IPSec and prevent unauthorised access to the device.

Panel Lock

Prevent users from changing the printer settings by setting an admin password to lock the panel.

Access Control

Prevent unauthorised usage of the printer by account control. Up to 10 user accounts can be set.

LDAP Address Book

Reduce the risk of information leakage due to mistakes in the target recipient's email address.

SSI / TIS

Prevent information leakage by securing communication with SSL/TLS and server validation supporting up to TLS 1.3.

IEEE 802.1X Authentication

Epson devices support IEEE 802.1X Authentication that authenticates each device with a server to connect to a network.

For more information on Security Features, please visit https://www.epson.com.sg/security-guidebook

Efficient Document Digitisation

Enjoy impressive scan speeds of up to 70ppm (Simplex) / 140ipm (Duplex). The dual CIS technology allows convenient duplex scanning in a single pass.

Intuitive Operation

The intuitive 10.1" tiltable TFT colour touchscreen panel with a user-friendly interface makes it simple to operate the printer, with customisable settings to suit your needs.

Easy Maintenance

The printer features a wider opening on the right side, allowing for quick removal of jammed paper and hassle-free maintenance.

Eco-Conscious Features

Includes a power consumption monitoring tool, a green leaf icon for duplex printing/copying, and paper-saving capabilities.

Connectivity Features

Standard Connectivity

The device is equipped with USB 3.0 and Ethernet network connectivity as standard allowing users to share it.

Additional Ethernet Option

Reduce security risks by connecting external devices that need to use the MFP with a separate network.

Wi-Fi Option

Enables flexible placement of the MFP with Wi-Fi connectivity. It also allows up to 8 devices to connect directly to the printer by Wi-Fi direct.

Fax Option

Enable fax capability with the fax option. Up to 3 fax options can be installed to expand the line capability.

Storage Feature with HDD

Improve convenience by storing print data in the internal HDD for convenient reprinting and distribution. Stored data can be downloaded or forwarded to various destinations without the use of additional software.

Enhanced Finishing Capability

Increase productivity with advanced finishing such as stapling, hole punching, folding and booklet making.

Finisher Tray

• Stacking up to 4,000 sheets (up to 3,000 sheets if Saddle unit is installed)

SHIFT-SORT

- Shift Sort

Seamless Software Solutions

Take advantage of remote management, customise print options and enjoy seamless compatibility with the Epson WorkForce Enterprise. Integrate these into your existing IT infrastructure to improve productivity and increase efficiency. For more information, please visit www.epson.com.sq/software-solutions.

Fleet Management

Epson Device Admin

Enhance IT efficiency with centralised device management and batch deployment. Usage tracking and resource optimisation reduce operation costs, while real-time alerts, remote troubleshooting and firmware upgrades ensure uptime and device security.

Epson Remote Service (ERS)

Enhance IT management efficiency by optimising resources and reducing costs with cloud-based remote monitoring, troubleshooting, alerts and reporting. Simplify rental service workflows with accurate billing, timely notifications and efficient support enabled by proactive maintenance, remote diagnosis and control features.

Print Management

Epson Print Admin

Enforce security with user authentication, secure print release and logs while reducing costs with quotas, print rules and usage reports. Enhance operational efficiency with centralised management, follow-me printing and automatic workflows for while supporting sustainability efforts by reducing waste.

Epson Print Admin - Advanced Workflows

Enable advanced scan features within Epson Print Admin. Convert documents into searchable PDF and index files for quick retrieval. Route documents automatically in a batch with job separation, print and scan directly with integration with business cloud storage.

Epson Print Admin Serverless

Simplify print management without a server, enhance security with user authentication and print release, and boost efficiency through streamlined scan workflows and cloud storage integration. Reduce costs and waste by enforcing quotas and leveraging on activity reports.

Document Management

Document Capture Pro

Automate your scanning tasks with an intuitive interface and customisable workflows Built-in OCR converts documents into searchable PDFs and editable files, enabling easy indexing and retrieval. Sort documents and upload scanned images directly to cloud storage for collaboration

Document Capture Pro – **Enhanced OCR**

Expand the OCR capabilities supporting up to 40 languages with enhanced accuracy. Enable User-defined Indexing functionality, allowing users to capture text and barcodes from multiple areas of a document and export data to a file, streamlining processing workflows.

Epson Open Platform

Expand the capability of the printer by integrating with embedded solutions. Allows ISV to integrate printers into their software for customised solutions.

Printer Options

Erase Red Colour

Removes objects with a red coloration from the scanned image or copy results.

Print or copy documents of various quantities for distribution to different groups and number of members.

OCR Option

Enable built-in OCR functionality directly on the device for Scan to Folder and Email without the need to install software. This option also requires the OCR Unit-P1 option.

Enables sending and receiving fax through IP address. This choice also requires installation of Super G3/G3 Multi Fax

Epson Print Admin Epson Print Admin - Advanced Workflows Document Capture Pro - Enhanced OCR

Cloud and Mobile Solutions

Epson Connect Services

Epson Email Print

Print to any Email Print enabled printer from any device that can send email, such as your smartphone, tablet or computer.

Remote Print Driver

Print through the internet from any applications with advanced settings on your computer, smartphone or tablet

Scan to Cloud

Scan and send documents directly to an email address or cloud storage right from the device panel without the need for

Fax to Cloud

Send received faxes directly to an email address or cloud storage.

Mobile App

Epson devices through the app from your smart phones and tablets. Setup and trouble shoot issues with step-by-step guide and access to manuals.

*1 Black and colour print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on system configuration, software, and page complexity. For more information, visit www.epson.com.sg/printspeed.

visit www.epson.com.sg/grintspeed.

2 The maximum number of printed pages per month is based on the performance capabilities of the printer, including ISO rated print speeds and paper handling capabilities.

3 Default mode in accordance with ISO7779.

4 Replacement cartifule yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. All ink colours are used for printing and printer maintenance, and all colours have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer setup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal. For more information, visit www.epson.com.sg/inkinfo.

Dimensions & Weight

WorkForce Enterprise Main Unit Only Weight: 98.2kg (219.2 lb)

With Inner Finisher, Hole Punch and Dual Cassete Option

With Staple Finisher, Saddle **Unit and High Capacity Feeder**

Shaping the future of printing with Heat-Free Technology

Epson Business Inkjet Printers make the sustainable choice simple. They combine eco-conscious technology with efficient features, helping you easily balance performance, business costs, and environmental impact. With power-saving Heat-Free Technology and high productivity, our Business Inkjet Printers can help you save energy, time, and money.

Save time with consistent high speed printing

No heat is required for warm-up, allowing the printer to print immediately.

With the use of Line Inkjet technology, high-speed printing of up to 55 pages per minute is possible even for duplex printing.

Less power consumption saves energy and money

With no fuser unit to heat, reduce energy consumption by

up to 85%*

compared to laser printers, resulting in cost savings for electricity bills.

Fewer replacement parts, lower environmental impact

Uses **up to 59%** fewer replacement parts" than laser printers.

No heat damage to the printhead.

Less intervention increases productivity

With fewer parts to replace and printheads that last longer, the amount of intervention is minimised, providing improved reliability and reduced downtime.

Lower Environmental Impact

Constructed with up to 30% recycled plastic and packaged in 80% recycled paper, this printer offers impressive sustainability without compromising on size or performance — making it a smart, eco-friendly choice for businesses.

Printer Body
up to 30%
Recycled Plastics

Packaging Box

up to 80%

Recycled Paper

^The usage ratio of recycled plastic could change depending on the procurement status of raw materials.

Certified Environmental Performance

Epson is committed to developing environmentally conscious products, which means that sustainability is considered from conception to completion.

Our Epson WorkForce Enterprise Printers comply with some of the world's most stringent environmental certification standards.

We offer sustainable innovations because we recognise that the choices we make as organisations, individuals or a society will be essential to our shared success.

Singapore Green Label and Blue Angel Mark have been approved for AM-C4000/C5000/C6000. Japan Eco Mark has also been approved for AM-C4000/C5000/C6000.

Amendment of the below clause is updated as of 1st November 2021.

*Testing was commissioned by Epson and conducted by Keypoint Intelligence. One specific model was selected from colour laser multi-function printers in the 65-70ppm class. Epson WorkForce Enterprise WF-C21000 with 100ppm lequivalent model in Europe was used during the evaluation.) This data is as of September, 2020. Devices were tested in default mode as per Keypoint Intelligence's proprietary standard energy consumption test methods. Calculations were based on a weekday workload of 2 x 4 hours printing + 16 hours in sleep/standby mode, and weekend energy use of 48 hours in sleep/standby mode. A total of 69 pages of workload test pattern using DOC, XLS, PPT, HTML, PDF files and Outlook email messages were printed six times in each 4-hour printing period.

**Testing was commissioned by Epson and conducted by Keypoint Intelligence. One competitor model was selected from worldwide best-selling vendor in the 65ppm and 70ppm colour laser multi-function printer. Epson WorkForce Enterprise WF-C20600 with 60ppm [equivalent model in Europe was used during the evaluation]. Consumables and periodic replacement parts required to print 1M pages. The weight includes all used consumables, periodical replacement parts and their packaging. Test printed pattern used was ISO24712.
