### Sustainability in Mind

Reduce power consumption through Heat-Free Technology. With hardware made from 30% recycled plastic<sup>1</sup>, utilising 84% less consumables compared to ink cartridge models<sup>2</sup> and over 80% recycled cardboard packaging, carbon footprint is minimised.

### Print with Ease

Improved design to reduce printing downtime with user replaceable maintenance box. Easy mobile printing with Mopria Print Service and AirPrint technology enables you to print wirelessly from smart phones or tablets.

\* 2-year warranty or 50,000 pages, whichever comes first, printhead included.

<sup>1</sup> Virgin plastic savings equivalent to approximately 250 plastic spoons, calculated as 3g of High Impact Polystyrene (HIPS) plastic spoon. Ratio of the amount of recycled plastic weight to overall plastic component weight of the hardware. The amount of recycled contents and recycled material varies depending on the model, manufacturing time and site.

<sup>2</sup> Material weight comparison of consumables (including packaging) between Epson ink cartridges of WF2630 series and Epson ink bottles of L5590/3550 series.

<sup>2</sup> When printed on Epson Premium Glossy Photo Paper.

<sup>3</sup> Otherwise 3 mm top, left, right, bottom.

<sup>4</sup> Default mode in accordance with ISO7779 for MFPs.

<sup>5</sup> Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.
