ENGINEERED FOR BUSINESS

Print Wirelessly

With Bluetooth connectivity, print high quality labels wirelessly from your PC or smart devices.

Personalised Customisation

Label editor (PC), iLabel and the new Epson Home & Craft Label app (mobile) gives you the freedom to edit, share and print quality labels.

Greater Savings

With significantly smaller side margins and a longer tape length, wastage is reduced greatly with higher cost savings.

Simplicity for Home Users

The new Epson Home & Craft Label app allows you to create personalised labels for everyday items such as stationery, storage containers and accessories with easy navigation and pre-designed templates. Ribbons and craft materials can also be created for decoration of gifts, clothes and greeting cards.

Approximately 750 new symbols and 60 frames are included in the app for easy creation of labels.

Smart Printing for the Office

The Epson iLabel app makes it easy for you to create, edit, share and print quality labels wirelessly from your Android or iOS smart devices. Add a new dimension to your labelling experience with more than 100 label design templates and over 400 available symbols that you can add to your labels.

What's more, you can also generate and print QR Codes together with eight different types of barcode printing, all effortlessly from your smart device.

Versatility for the Workplace

Epson Label Editor* software allows users to insert images and company logos on the labels. Additionally a full range of font types are available on the user's PC.

It is also great for creating custom labels for filing, storage, equipment and cable management with QR codes and barcodes.
