

WORLD'S SMALLEST* 3LCD LASER PROJECTOR.

EpiqVision Mini EF-11/EF-12 Laser Projection TV

EPSON
EXCEED YOUR VISION

androidtv

Break through size constraints with up to 150-inch of pure crisp and vividness.

Immerse yourself in the latest shows with EpiqVision Mini EF-11 & EF-12 laser projection TV. Stylish and compact, the portable projector is your perfect companion for a home cinematic experience, accompanied by the power-packed built-in Yamaha speaker¹. Easy to use and comes with built-in smart features² such as Android TV, Chromecast and Miracast², you can now feast on your favourite movies with a simple click on the remote.

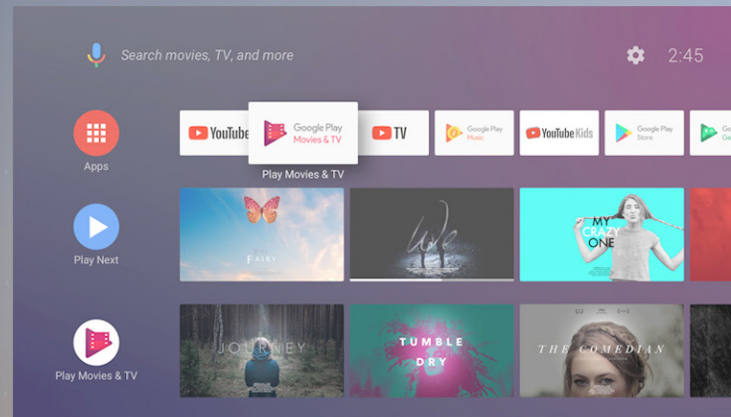

IT'S IN THE DETAILS.

EpiqVision Mini

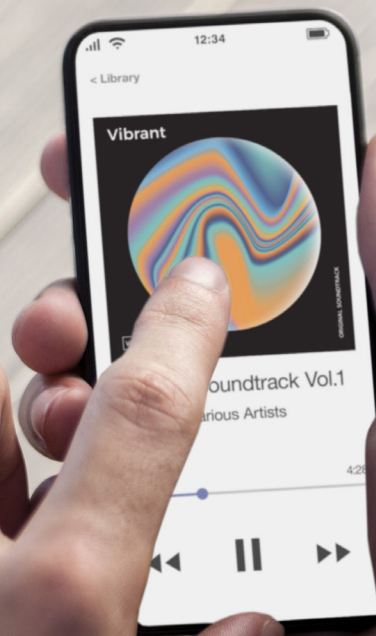

* Survey conducted by Futuresource Consulting Limited, for 3LCD laser projectors of more than 500lm in brightness, as of 22nd Oct, 2020. Epson EF-11: World's smallest 3LCD laser projector. Epson EF-12: World's smallest 3LCD smart laser projector with Android TV.
¹ Applicable to EF-12 only. ² EF-12 requires separate downloading of third party app.

Immersive home viewing experience brought to you on an adjustable 150-inch of vivid, frameless screen with rich sound from built-in Yamaha speaker* anywhere in your home.

* Applicable to EF-12 only.

Stylish and modern

Fits right into your space, EpiqVision's iconic square form blends perfectly into the aesthetic of your living area. With fine copper accents on leather-like texture, the EpiqVision Mini EF-12 Laser projection TV screams luxury and fine craftsmanship.

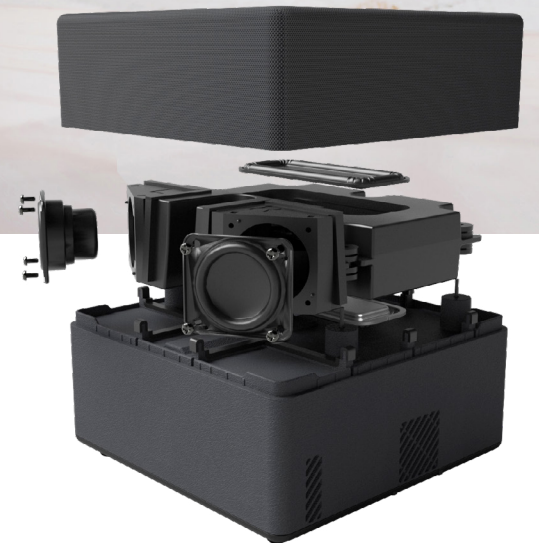

Bask in the true sound

Immerse in rich audio with the built-in Yamaha speaker* while you enjoy your favourite contents. Works as a standalone Bluetooth speaker* for your music while you relax at the comfort of your home.

* Applicable to EF-12 only.

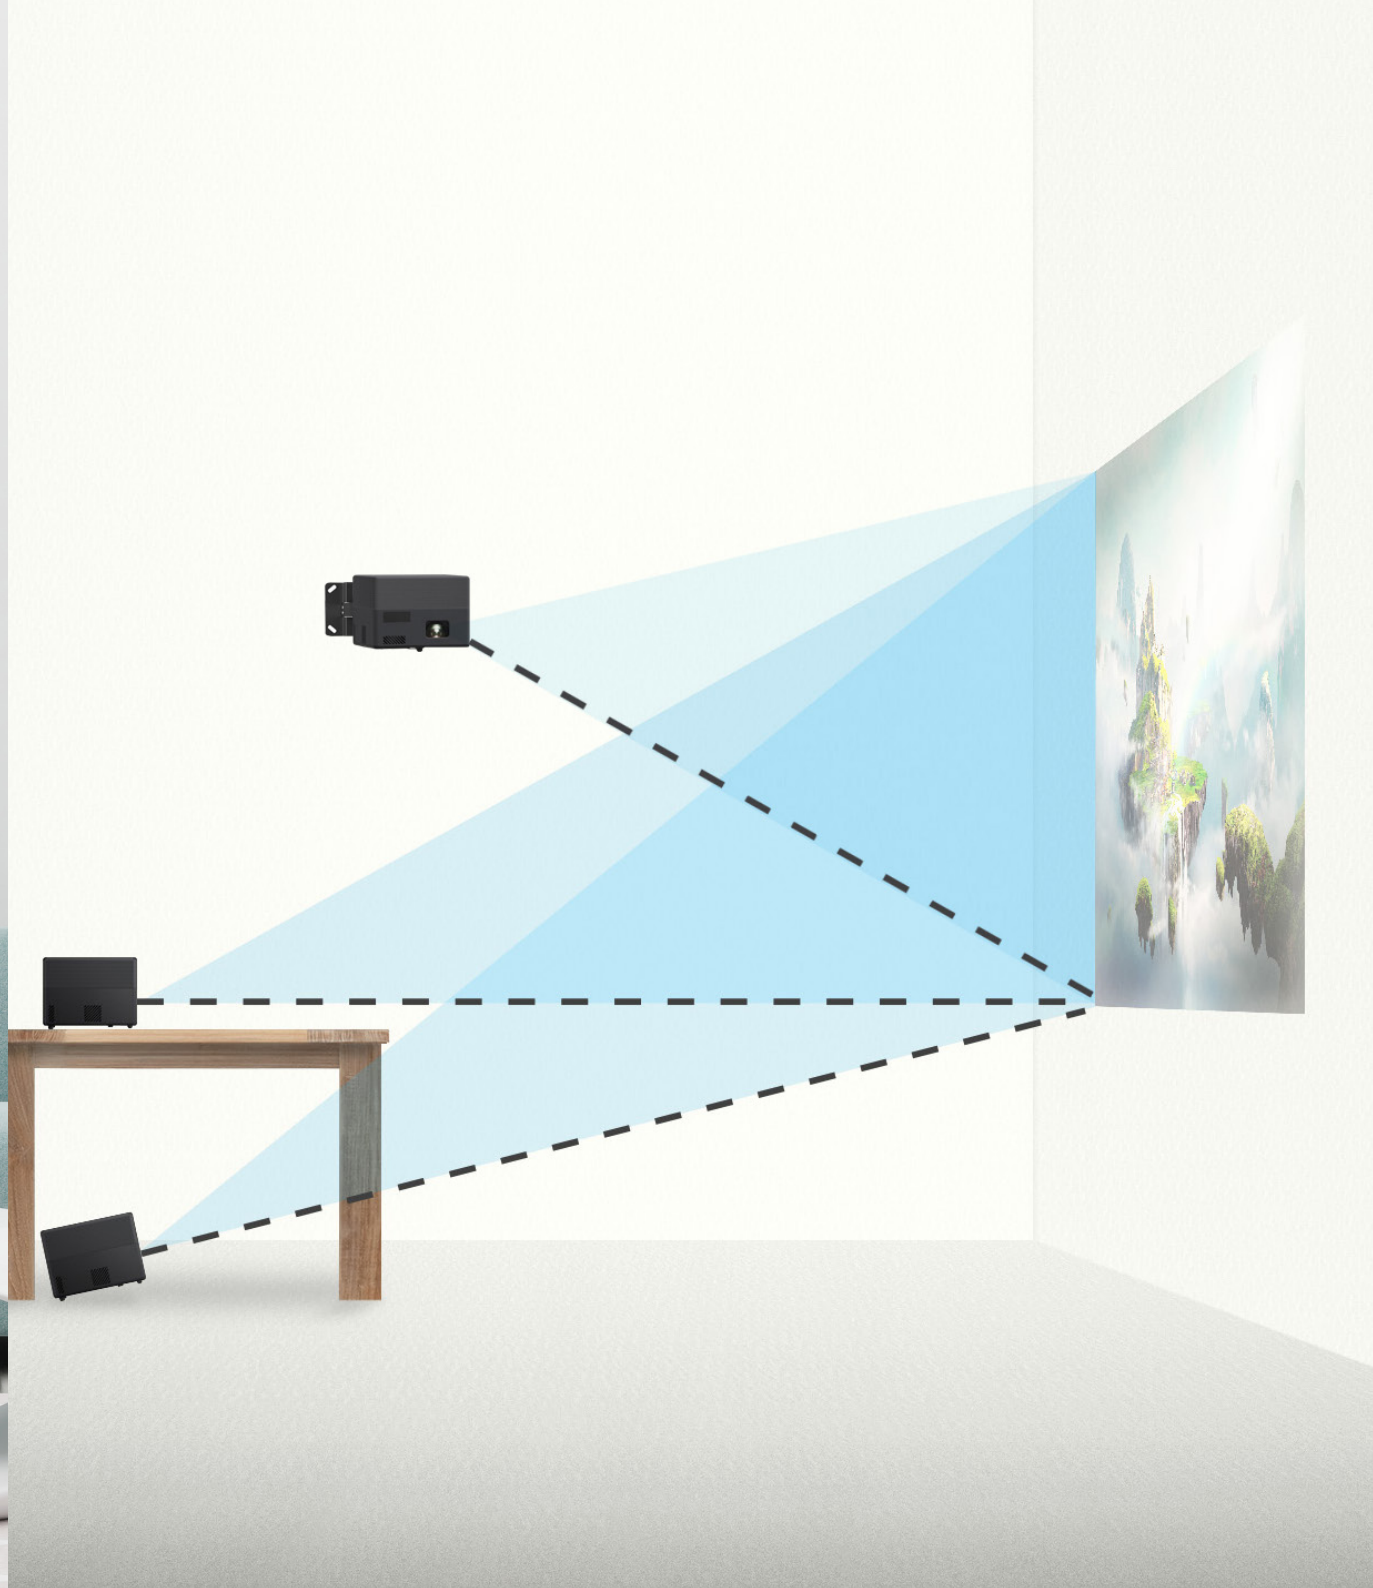

sound by  **YAMAHA**

Fits any corner of the room

Portable and compact, bring the EpiqVision into any room and begin projecting from your smartphone via the built-in Miracast*. You can also simply mount it with any VESA mount or tripod and enjoy.

* Built-in only for EF-11, EF-12 requires downloading of third party app.

Epson Online Meetings

Just start up your projector and begin video conferencing with no additional fuss. Zoom-ready, the EpiqVision Mini EF-12 Laser Projection TV is equipped to handle group calls, online meetings and conferences without needing extra software.

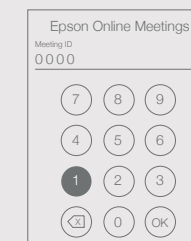

Joining a ZOOM meeting:

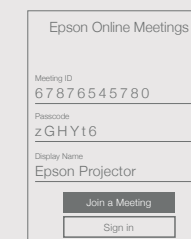

STEP 1

Connect your webcam to the USB port on the projector.

STEP 2

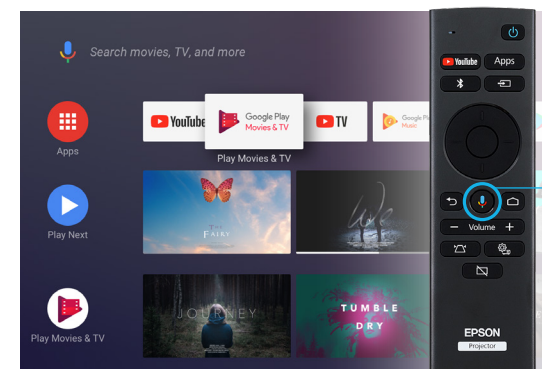

On the Epson Online Meetings, enter the meeting ID and password.

STEP 3

Select join meeting.

Voice control

Smart devices-ready

With Chromecast built-in¹, you can easily cast movies, shows and photos from your Android or iOS device to your screen.

Easy installation

Auto Installation function automatically adjusts projection with horizontal and vertical keystone correction² without prior settings and complex cable management. Screen distortion and focus level are also optimised automatically with the built-in camera.

Do more with your projector

Unlock limitless possibilities with Google Play on your projector. Play your favorite games and watch the latest videos whenever you want.

Google is a registered trademark and YouTube and Google Play is a trademark of Google LLC.
