Holistic Viewing Experience

The EH-QL3000W/B embodies the perfect interplay of brightness, colour, and detail, each contributing to a superior viewing experience. This holistic approach is essential for projectors, as these elements work together to enhance image clarity and richness. By harmonising these elements, the projector delivers a vivid and immersive experience with superb image quality, ensuring that movies, games, and all visual content are enjoyed with maximum impact and fidelity.

Holistic Image Quality

Brightness

Brightness is crucial for image quality, making visuals more vibrant and impactful. It enhances the clarity and visibility of colours and details, ensuring a vivid and engaging viewing experience.

Colour

Colour accuracy enriches the viewing experience by reproducing true-to-life hues and saturation. It ensures that images reflect realistic colours, enhancing overall atmosphere and visual appeal.

Detail

Detail pertains to the sharpness and dynamic range of the image. Advanced processing and precision lenses reveal intricate elements and depth, contributing to a clearer and more immersive visual experience.

Unique Octagonal Shape

Featuring an unprecedented octagonal design, this projector not only stands out with its stylish, modern aesthetic but also enhances visual appeal and integrates seamlessly into any setting.

Transform your home into a cinematic haven with Epson’s premium EH-QL3000W/B. This cutting-edge laser projector delivers brilliant image quality and exceptional brightness, perfect for vibrant viewing even in well-lit spaces.

3LCD Laser Technology For Unparalleled Colour Realism

Equipped with unique cutting-edge 3LCD laser optical engine, the EH-QL3000W/B delivers incredible contrast and 6,000 lumens of equal white and colour brightness* from jet black to rich, vibrant colours with its superb colour reproduction.

2-Axis Shifting 4K Innovation For Clear Precise Images

Using Epson’s proprietary shift device technology[^], the high aperture ratio 1080p panel is upscaled to Real 4K, achieving 8.3mil pixels. Delivering bright and vivid images in every projection.

Powerful 4K Image Processor For Vivid, Precise Visuals

Experience exceptional clarity and vibrant colours with our powerful 4K image processor, designed to enhance detail, support HDR10, and deliver superior image quality for an immersive viewing experience.

* Colour brightness (colour light output) and white brightness (white light output) will vary depending on usage conditions. Colour light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
[^] Epson patented unique feedback control technology ensures precise and unmatched shift device movement.

High Contrast Ratio

With a high contrast ratio of over 5,000,000:1 and exceptional brightness, the projector offers a broader spectrum of light levels. This enhances the visibility of intricate details in both dark and bright scenes, resulting in a richer and more immersive viewing experience.

High Dynamic Range

Support HDR10 and Hybrid Log-Gamma to provide more precise detailing for light and dark graduation contents, as well as more vibrant images and improved contrast.

A wide-angle view of a modern lounge area. A large screen on the wall displays a concert performance. Several people are seated on a low, light-colored sofa, watching the screen. The room features large windows on the right side, offering a view of a lush green garden. The interior design is minimalist, with light-colored walls and a wooden floor. A man in a white shirt is standing on the left, and a woman in a grey dress is standing in the center. A potted plant is visible near the screen. The overall atmosphere is bright and airy.
