EB-805F

IT'S IN THE DETAILS

3LCD technology that delivers quality projected images and reliable performance.

Flexible Placement

Designed especially to fit tight retail spaces, the projector can rotate 360° without compromising image brightness and clearness.

MAGNIFY YOUR SPACE WITH VIVID FULL HD PROJECTIONS

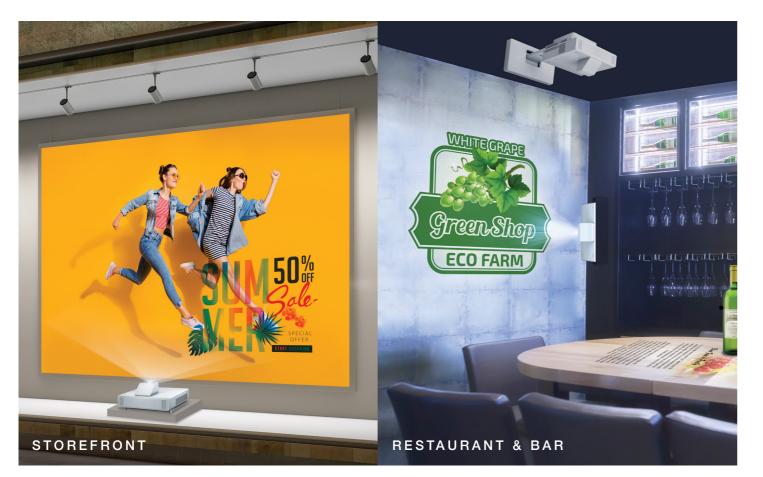

Captivate your customers with Epson EB-800 series projectors. Enhance the customer experience by creating impressive video content. Reach beyond the traditional means of information sharing through digital signage projections that can be changed according to your needs. Dazzling and engaging storefront displays create a talking point amongst your customers, achieving maximum exposure for your brand.

REMARKABLE IMAGE QUALITY

With an optimum brightness of 5,000 lumens and dynamic contrast of over 2,5000,000:1, be assured that your images will be vivid and attention-grabbing even under a variety of ambient lightings. The ultra-short-throw laser projector is able to project beautiful and sharp images even in the tightest retail spaces up to a maximum of 130-inch.

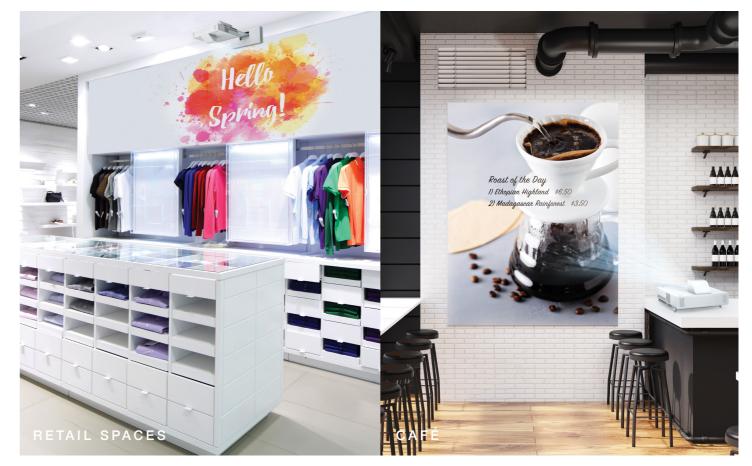

MULTI-DIRECTIONAL PROJECTION

Thanks to its laser light source, EB-800 series projectors can rotate 360° in any direction — horizontally, vertically and rotationally — without any loss in image brightness and quality. An ideal companion to businesses that require vivid projections on a variety of surfaces such as floors and ceilings.

EPSON CONTENT MANAGER

Create eye-catching projection playlists and add your own images and videos, custom shape filters, and overlay effects with the Epson Content Manager. Playlists saved on an external storage device can be inserted directly to the projector without using any additional cable connection. Scheduling for your projections can also be done fuss-free over the app.

- Display changes to match ever-changing trends
- Boost customer engagement
- Captivate your target audience

- Create a welcoming storefront
- Provide a deeper story behind the products
- Customise your brand's promotional information
- Enhance the dining experience
- Easy updating of virtual menus

DO-IT-YOURSELF CONTENT

Create video and image content with Epson's intuitive mobile projection apps and Creative Projection app*. With over 40 highquality templates to choose from, customise stunning and creative content effortlessly and project them wirelessly to capture your audience's attention.

*Creative Projection app is currently available on iOS only.

Enrich customers' experience with informative signage
Create an insta-worthy atmosphere and be the next cafe to go viral

SLEEK, ADAPTIVE AND VISUALLY EXCEPTIONAL

Combining illumination with projection, the Epson EB-800F/805F projector transforms any surface into customisable digital marketing spaces, enticing your customers and strengthening your brand's messages to them. Utilise the animated displays to provide a deeper story to your audience, and ultimately enticing and convincing them to make that purchase.

HIGH CONTRAST RATIO

Come equipped with high contrast ratio, the new Epson EB-800 series projectors have an optimum brightness of 5,000 lumens, promising crisp and vivid projections that are bound to capture attention. With a dynamic contrast of over 2,500,000:1, you can be sure to wow and entice customers through the exceptional Full HD visual experience even in spaces with bright ambient lights.

WORRY-FREE PROJECTION

With multiple laser diodes to rely on, the screen won't go black even if one diode goes out. This eliminates the worry of the projector light burning out while displaying your advertisements.

LASER VS LAMP

The projector keeps working even when one light diode goes out.

Contrast Ratio Over 2,500,000:1

The screen goes black when the lamp burns out.

DIY THE CUSTOMER EXPERIENCE BE ORIGINAL, BE MEMORABLE

Create memorable stories in a few simple steps and retain the top-of-mind brand awareness among your customers. Design personalised in-store messages or video content and instantly project them from your Epson EB-800F/805F projectors. Have the reins to create them from scratch, edit from existing templates or simply add in personalised messages into your content through the app.

CREATIVE PROJECTION APP

Create impressive custom content on the iPhone or iPad easily with the Epson Creative Projection* app. Beautify any space by combining your photos and videos with the app's built-in templates and stamps. With the Epson Creative Projection, you can now create original, dazzling content to enliven rooms, product displays, and spaces around you, anytime and anywhere.

How to create content using Creative Projection App:

Set up your projector.

Insert a USB memory into the projector and connect the projector to a network.

Select a template and edit your content.

Select a built-in template that fits your vision of the content you want to create. You can customize your content by adding text, stamps, and effects.

PROJECTOR CONTENT MANAGER

The Epson Projector Content Manager software allows you to add images and movies to playlists, and save them on a USB memory device. Now, you can easily project your playlist without needing an external device. You can also use a variety of playlist control functions to schedule playlists, add effects, or do simultaneous playback.

Preview content on the projector.

Connecting your iPhone or iPad and projector enables you to edit content on your iPhone or iPad while projecting a preview. You can easily connect your device by reading a QR code displayed on the projected image.

Save and playback contents.

After you finish editing your content, save the file to the USB memory that you inserted in the projector. You can play the content that you save from the projector even if you do not have your device with you.

OUTSTANDING FLEXIBILITY

ABSOLUTE PEACE-OF-MIND

360° PROJECTION

The EB-800F/805F with laser light source can be rotated 360° in any direction - horizontally, vertically and rotationally - without any loss in image brightness. This makes it ideal for a wide range of applications, such as projecting onto ceilings and floors. Furthermore, the newly supported portrait projection allows for more installation flexibilities.

DIGITAL SIGNAGE WITHOUT PC

Project contents on walls, ceilings and floors without needing to connect to a PC. Simply insert the USB stick that has your content into the projector and it is ready to be projected. Whether it is images or videos, the EB-800 series makes it easy and convenient.

EPSON PROJECTOR MANAGEMENT

With Epson's network monitoring and control software, you can see from a single PC which projectors are available and whether they are running efficiently – even across the biggest network. You can configure your projectors and access their serial numbers remotely, as well as receive instant email alerts for pre-defined critical indicators such as non-functioning devices or overheating laser diode.

Now you can send messages or announcements as JPEG files or text simultaneously to any number of projectors on a network. This makes the EB-800F/805F projector series very useful for immediate communication needs or even emergencies.

QUICK START-UP TIME

Equipped with laser light technology, the EB-800 series starts up within 5 seconds, ensuring smooth and timely displays. Fast and efficient, your advertisements are always ready for display at a moment's notice. more installation flexibilities.

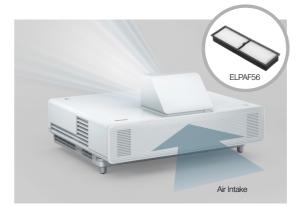

PERFECT FOR SMALL SPACES

With the ultra-short throw capability, it is now possible to project a large-screen within the narrow space of retail windows. You can now create captivating window displays with the help of large projections to increase the visibility of store merchandise.

DUST RESISTANCE WITH STRONG FILTER

A revolutionary high-performance filter and an improved dustproof structure help minimise dust from entering the optical engine. Thanks to this clever dust-resistant design, it enables higher brightness that can last longer compared to conventional models. The airflow is also optimised such that the unclean air does not blow directly into the optical engine.

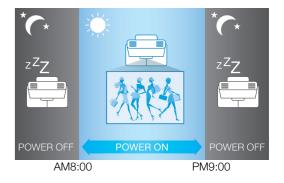

* 20,000H life for Laser light source : Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m3 of particulate matter. Time varies depending on usage conditions and environments. Replacement of parts other than the light source may be required in a shorter period.

WEB CONTROL

By connecting your projector to a network, you can adjust your projector installation entries from a PC or smart device.

SCHEDULING FUNCTION

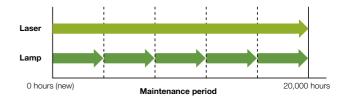

The EB-800 series can run programs as scheduled with a built-in clock. You can set the times for turning projectors on and off daily as necessary.

COST EFFECTIVE

Engineered with inorganic LCD panels and an inorganic phosphor wheel. The newly designed laser light source delivers 20,000 hours* of maintenance-free for the laser light source.

And with the advanced electrostatic filter having an equally long-lasting life, you enjoy peace of mind in using these highly reliable laser projectors.

VERSATILITY WITH WHITE OR BLACK FOR SPACE'S AESTHETICS

Available in white and black, the compact and sleek Epson EB-800F/805F projectors add value to your space's aesthetics. The stylish projector aims to complement your interior's style, bringing a sense of modernness into the space.

PROJECTOR WISHES COME TRUE.
