ADVANCED SCANNING SOLUTIONS FOR BUSINESS ACCELERATION.

Elevate your business operations with Epson's cutting-edge scanner range. These scanners are meticulously crafted to meet the demands of speed and reliability. Engineered with advanced technologies, Epson scanners can handle higher scan volumes with faster scanning speeds to enhance productivity while consistently surpassing end-user expectations.

ENGINEERED FOR good

#1 DOCUMENT SCANNER 2024

EPSON

Source: IDC Asia/Pacific Document Scanner Market Model, 2H 2024

Portable & Compact Sheet-fed Scanners

Epson scanners are designed to maximise space efficiency without compromising performance. The WorkForce DS-C330, ES-C320W, and ES-C380W compact A4 document scanners are ideal for front-facing offices or environments with limited workspace, delivering fast scanning speeds and versatile media handling for everyday business needs.

For users who require mobility, the ES-50 and ES-60W portable scanners offer the perfect on-the-go solution. Small, lightweight, and easy to carry, they enable convenient scanning anytime, anywhere.

Sheet-fed Scanners

Experience exceptional productivity with Epson WorkForce A4 sheet-fed scanners. Designed for speed and reliability, these scanners feature a minimum 50-sheet Auto Document Feeder (ADF), scanning speeds up to 85 pages per minute, and models with network or Wi-Fi connectivity for flexible operation. They handle a wide variety of media with ease, from plastic cards and receipts to long paper, delivering seamless digitisation for any business environment.

Front Office Reception
Scan documents, ID cards and passports in compact spaces.

Recommended models:
DS-C330 ES-C320W

SOHO
Scan wirelessly and share scanner across multiple users - no PC needed.

Recommended models:
ES-C380W

On-The-Go Users
Scan documents on demand from any location.

Recommended models:
ES-50 ES-60W

Warehouse
Scan and sort large volumes of documents such as invoices and delivery notes.

Recommended models:
DS-870 DS-900WN DS-32000

Corporate Office
Perform daily scanning of business documents.

Recommended models:
DS-410 DS-530II DS-770II DS-790WN

FRONT FACING OFFICE *SOHO* *OFFICE* *WAREHOUSE*

Flatbed Dock^
Transform your Epson WorkForce sheet-fed scanner into a hybrid scanner by attaching a dock (B12B819011) to the Epson Perfection V39II flatbed scanner, creating a compact, space-saving solution that handles thick items such as books, or small, fragile documents like receipts.

ScanWay Technology
Epson's ScanWay scanners* streamline your workflow by allowing users to scan documents directly to network folders, email, USB drives, and cloud services—all from the scanner's control panel. Without the need for a local PC, no data is stored on the computer, enhancing information security.

Shared Environment
Usage of the scanner can be shared to multiple users across a network via Ethernet, Wi-Fi, and Wi-Fi Direct connectivity.

^ Compatible with DS-530II, DS-770II, DS-870 and DS-970 models only.
* Applies to ES-C380W, ES-580W, DS-730N, DS-790WN, DS-800WN, DS-900WN and DS-1760WN only.

MEDIA TYPES SUPPORTED BY DS-C330/ES-C320W/ ES-C380W WITH DUAL SCAN PATHS

Vertical Path Scan

Up to A4	Receipt	Postcard*	Business Card

Straight Path Scan

B4-A3^	Long Paper	Passbook#	Passport#	Card	Envelope

* Postcard with thickness of more than 190g/m² needs to be scanned in the straight path position.

^ Requires carrier sheet.
# Requires passport carrier sheet for DS-C330 and ES-C320W.

Flatbed Document Scanners

Epson flatbed document scanners are designed to optimise business workflows and deliver versatile solutions for a wide range of applications. With a built-in flatbed, they easily handle various media types such as books, long documents, receipts, and ID cards. Available in both A3 and A4 sizes, Epson offers models with different scanning speeds and choice of network models to suit every business requirement.

Corporate Office, Banks, Education

Scan a diverse range of media types such as long paper, booklets apart from the usual A4/A3 documents.

Recommended models:

DS-7500　DS-50000

WHY EPSON WORKFORCE SCANNERS ARE
PERFECT FOR YOUR BUSINESS

High Reliability
Epson WorkForce scanners enable efficient scanning while protecting original documents, thanks to smart features such as glass dirt detection, ultrasonic double-feed detection, and paper protection.

Boost Productivity
Scan mixed-size documents effortlessly with smart image processing that keeps files compact and easy to share.
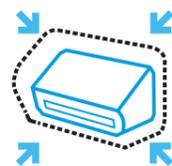

Refined Workflow
Simplify your scan workflow with Document Capture Pro and built-in network sharing for effortless collaboration.

ScanWay

Secure Scanning
Protect your data with ScanWay technology*, enabling direct scanning to network folders, email, USB, and cloud from the scanner panel – without a PC.

Space-Saving Design
Maximise your workspace with compact, space-saving scanners that fit seamlessly into any environment – without compromising on scan quality.

Energy Efficient
Enjoy instant scanning with eco-friendly ReadyScan LED technology. No warm-up time needed to deliver faster performance and reduced energy consumption.

*ScanWay technology is available on Epson WorkForce ES-C380W, DS-730N, ES-580W, DS-790WN, DS-800WN, DS-900WN, DS-1760WN only.

# Document Enhancement Suite

ENHANCEMENT FEATURES

Text Enhancement
Improves text documents when scanning in colour, grayscale or black-and-white. Removes background for better clarity, useful for double-sided printed documents.

Text Enhancement **OFF**   Text Enhancement **ON**
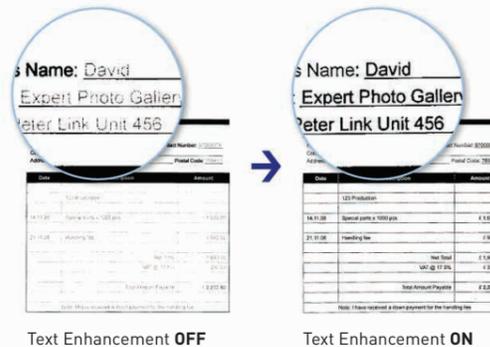

Auto Area Segmentation (AAS)
This is useful when scanning black-and-white documents with pictures and graphs. It segments scanned document into 'Text Area' and 'Image Area'. The 'Text Area' is scanned in black-and-white and 'Image Area' is scanned in halftone.

Original

Auto Area Segmentation Function: **ON**
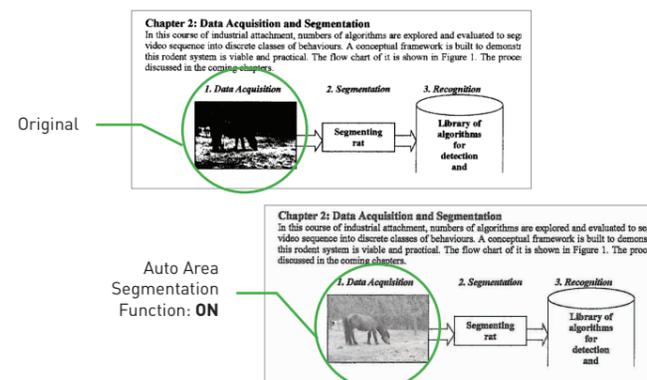

Document Skew Correction
Automatically straightens scanned images.

Document Skew Correction: **OFF**
Misaligned document results in skewed scan.

Document Skew Correction: **ON**
Misaligned document is straightened when scanned.

Advanced PDF Features
Enhance document management with our scanners' advanced PDF features, enabling searchable PDF creation, automatic document orientation, and robust security measures to protect confidential files through secure passwords.

Colour Dropout & Colour Enhancement
Users can remove or enhance the visibility of ink signatures such as "Confidential" and "Urgent" stamps through one of the preset colours (all colours except black). Settings can be customised to include up to 5 colours in a single scan. Up to 10 preset colours can be saved or reused.

Document Edge Correction
Correct and patch up missing edges or corners of the documents that are folded or torn with the colour of the original document. Punch holes can also be removed to enhance the overall aesthetics of the scanned image.

Folded edge   Paper tear

Border shadow   Punch hole
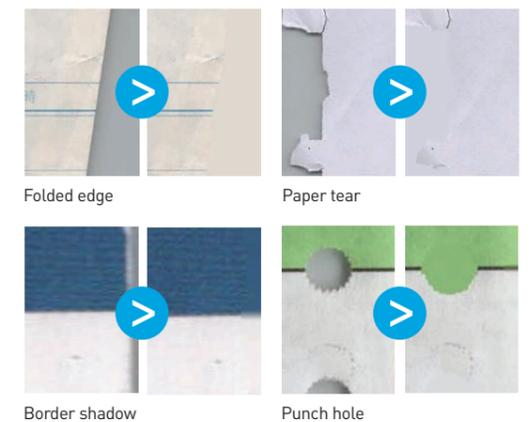

Automatic Feeding Mode
Scan automatically as documents are placed into the ADF. This feature is useful when you need to scan large volume of documents in different types and sizes continuously. Documents can be saved into a single file.

Epson Software Solutions

DOCUMENT MANAGEMENTS

Epson ScanSmart

Scan, review, and save in 3 easy steps

Scan documents using this intuitive software with built-in OCR to create searchable PDFs or editable file formats like Word, Excel, and PowerPoint. It also supports automatic file and folder naming capability and exports to popular cloud storage services, ideal for efficient document management and collaboration.
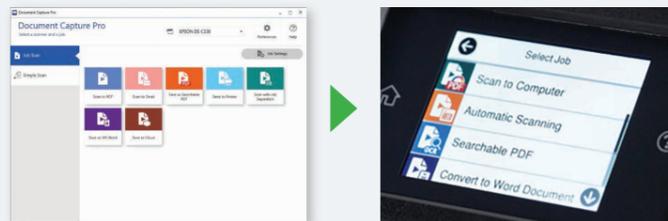

STEP 1 — Scan

STEP 2 — Review

STEP 3 — Save

For scanning photos, you can perform simple adjustment with a wide variety of photo enhancement features*.

*Features only available for V39II and V850 Pro scanners.

Document Capture Pro

Simplify your scanning workflow and automate your scan processes with up to 30 customisable scan jobs and assign to device panel for one-touch operation.

Wide Variety of Output Destinations

Easily export your documents to multiple destinations - save to designated folders, send via email, or upload to online cloud storages: Microsoft OneDrive, Microsoft SharePoint (Online/Server), Evernote, Dropbox, Google Drive.

Data Capture with Advanced Indexing

Automatically extract data from scanned documents using indexing. Register up to 10 detection areas each for OCR and barcode, and up to 20 areas each for passport and travel document to capture data. The results can be output to TXT, CSV, or XML file format.

Document Distribution with Job Separation

Efficiently sort and distribute documents using various separators such as text, barcodes, patch codes, form types, fixed pages, blank pages, and file size.
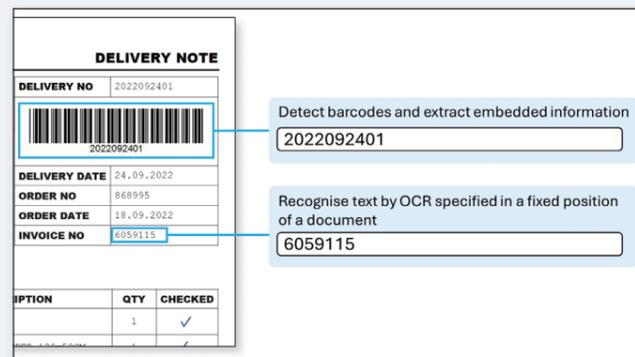

CASE 1	CASE 2	CASE 3	CASE 4
Batch Separation into folders by Barcode Detection	Job Separation by Barcode, save as multi-page PDF	Job Separation by Blank Page into separate folders (Blank Page removal)	Batch Separation by Fixed Number of Pages, save as multi-page PDF

CENTRALISED SOLUTIONS

Document Capture Pro Server

Manage and control your fleet of scanning devices in the network with a web browser through a server. Admin can centralise scanning workflow without having to install drivers on each client computer, secure scanning devices to prevent unauthorised use and track documents with log reports, and more. Further improve document security with authentication functions with Document Capture Pro Server - Authentication Edition.
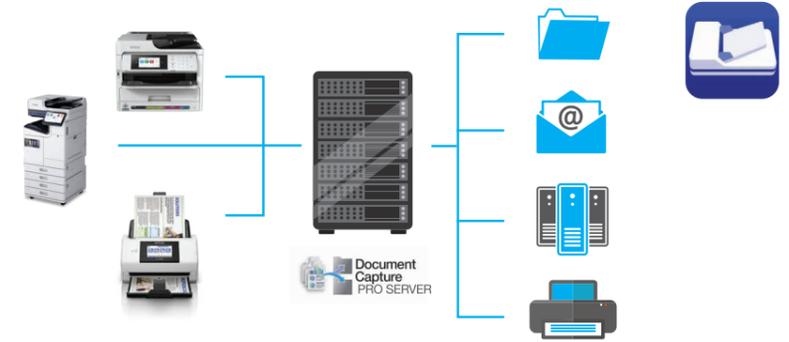

Epson Print Admin

A server-based solution that creates a secured centralised printing and scanning environment through user authentication. Release print jobs and distribute document automatically based on the user's account information. Expand the capabilities of document distribution with **Epson Print Admin – Advanced Workflows***. This optional solution allows conversion of documents into Searchable PDFs with built-in OCR and automate processes by various job separation methods.

Scan preset menu — User

- Application Form → **Application Form**
- Report → **Report**
- Receipt → **Receipt**
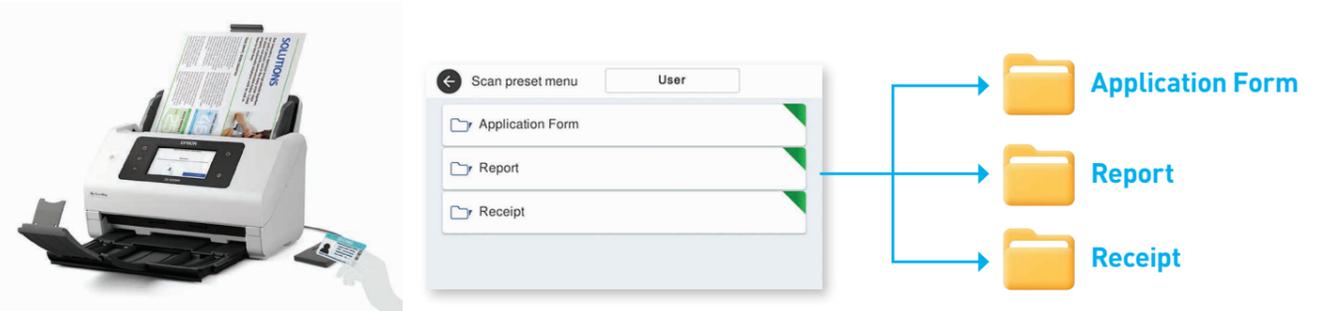

*Epson Print Admin – Advanced Workflows is a paid add-on feature.

Epson Print Admin Serverless

A device-embedded authentication scanning solution that does not require a server and can be used to register up to 300 user IDs in the device. With a simple tap on the panel icon, user can conveniently scan and send documents to their personal folder or email address linked to the user's account information.

Epson Software Solutions

CLOUD & MOBILE SOLUTIONS

Epson Connect - Scan to Cloud

Scan and send images to a recipient via email or save directly to popular cloud storage services right from the scanner's LCD panel without a PC or email server.

Output to various destinations

- @ Email
- box Box
- Dropbox
- Evernote
- Google Drive
- OneDrive
- SharePoint Online
- Teams

Scan to Cloud

Epson Connect

Epson Smart Panel

An intuitive mobile application for you to scan documents directly from your smart devices and save or share scanned images through installed apps and cloud storage services. Available on both iOS and Android.

FLEET MANAGEMENT SOLUTIONS

Epson Device Admin

Set up, manage and deploy a fleet of Epson devices remotely with a single application. Ensure maximum uptime, productivity and cost savings with automatic alerts and reporting capabilities.

Epson Remote Services

Monitor and manage your devices from anywhere via the internet with a cloud-based system. Run billing programmes and provide accurate support by checking the current status of the devices installed in your customer's premises.

Scanner Integration

SCANNER SDK INTEGRATION

Epson provides an Application Programming Interface (API) to seamlessly integrate Epson scanners into custom applications, mobile apps, solutions and connectors to various cloud services. Epson partners can receive support through concepts, manuals, and Software Development Kits (SDK) with sample codes, empowering them to develop tailored solutions for their customers.

For PC Applications
SDK packages for integrating Epson scanning devices to PC applications.

For Mobile Applications
SDK packages for integrating Epson scanning devices to mobile applications.

For Document Capture Pro Solutions
Simplifying deployment, running scan jobs from an application and create customised output destinations.

Customer's Application — API — Scanning Device	Customer's Application — API — Scanning Device	Scanning Device — Document Capture Pro — Customer Connector — Document Cloud

Please contact your local sales representative for more information.

EPSON OPEN PLATFORM

Seamless System Integration with Epson Open Platform (EOP)

Epson Open Platform (EOP) transforms Epson's scanners and printers into flexible and customisable devices, adapting to customer's workflow.

EOP-compliant devices offer complete control over printing, customisable interfaces, workflow management, and enhanced security. EOP allows independent software vendors (ISVs) to create tailored solutions by embedding their user interface into the device control panel.

Compatible with Third-party Software Solutions

Epson Open Platform is compatible with a range of third-party software solutions for print management and document processing.

Application Server ⟷ **OP** ⟷ Open Platform supported device

Developing with Epson Open Platform

Software vendors can develop their solutions with Epson Open Platform API using HTML, CSS and JavaScript to integrate Epson devices into their software solutions.

Please contact your local Epson sales office if you wish to integrate Epson products into your solutions with Epson Open Platform.

Supports Wide Range of Epson Products

Embed your single solution across a wide range of Epson products with minimal development required.

EPSON OPEN PLATFORM

- Automate & simplify workflows
- Apply printing policies
- Enhanced security by ID card
- Embed customised user interface into device control panel
- Customisable solutions
- Streamline installation processes & settings
