High-speed Scanning
Boasting a scan speed of 45ppm/90ipm, the DS-770II offers one pass duplex scanning.

Impressive Media Handling
Handles a wide variety of media from 27gsm to 413gsm efficiently and seamlessly.

Flatbed Option
A Flatbed Dock can be used with the Epson Perfection™ V39II to enable both sheetfed and flatbed scanning.

* Using carrier sheet by folding in half.

Experience a new level of quality and efficiency with the high-speed and versatile Epson WorkForce DS-770II. Designed to handle a wide variety of media, you'll be able to scan anything from fragile paper documents to plastic cards and even thick books with its flatbed option. Managing your scanned files is also a breeze with the Document Capture Pro software.

Versatile, High-speed Scanning

Boasting a scan speed of up to 45ppm/90ipm, the DS-770II offers one pass duplex scanning, that brings additional convenience in your daily use.

Impressive Media Handling

The DS-770II handles a wide variety of media between 27-413 gsm, so you can scan anything from paper documents to plastic cards such as ID, credit and business cards efficiently and seamlessly.

Flatbed Option*

With the optional Flatbed Dock, the Epson Perfection V39II can be used together with the DS-770II to provide a flatbed option for users who need to scan thick objects such as books, or small and fragile documents that can be easily damaged such as receipts.

* Push scanning is not supported for Flatbed. For Mac, installation of the V39II scanner driver is required.

Scan Fragile and A3 Documents Easily

Scan small and fragile documents, as well as A3-sized documents, using a carrier sheet that can be automatically detected by the DS-770II. Alternatively, you may scan fragile documents without using a carrier sheet by turning on the Slow Scan Mode.

User-friendly Features

Automatic Feeding Mode
The Automatic Feeding Mode enables large volumes of documents to be scanned continuously. In addition, this mode allows you to scan documents of different sizes at once without needing to arrange them by size, and saving them as a single PDF.

Paper Protection Function
Upon detection of abnormal paper feeding or stapled/folded paper, scanner will automatically stop to prevent damage to important documents.

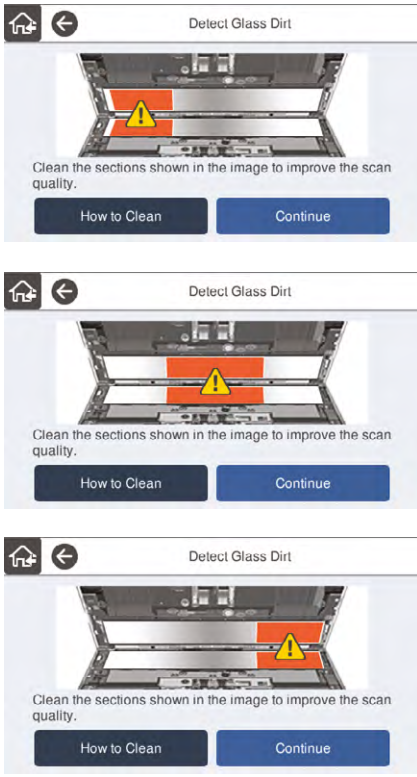

Competitor   Epson

Double Feed Detection Skip Function
Activate the Double Feed Detection Skip function to scan documents with stickers and labels.

Image Sensor Glass Dirt Detection

A notification will be sent upon detection of dirt in three areas before scanning. This reduces the risk of re-scanning due to bad image quality, improves the Scan-to workflow and increases business productivity.

Epson Scan 2

Text Enhancement
Improves text recognition when scanning text documents, whether in colour, grayscale or black-and-white. Removes background for better clarity, which is especially useful for double-sided printed documents.

Document Skew Correction
Automatically adjusts and straightens scanned images.

Colour Enhancement & Colour Dropout
Remove or enhance the visibility of ink signatures such as "Confidential" and "Urgent" stamps. Users can pick one of the preset colours (red, green, blue, pink, purple, yellow, orange, or all colours except black), or use the customised settings to dropout or enhance up to 5 colours of your choice with a single scan. Up to 10 preset colours can be saved for reuse.

PDF Features for Added Convenience
The built-in OCR enables searchable PDF files. Secure your PDF files by setting a password to prevent unauthorised viewing, editing or printing.

Document Management

Document Capture Pro*
Easily scan, view, edit, save and transfer scanned documents. The software optically recognises barcodes, characters and blank pages in scanned documents to separate them into different folders. It allows you to create up to 30 customised job settings, making multiple scan jobs a breeze.

* Limited functionality for Mac version of Document Capture software.
