

COMPACT DYE-SUBLIMATION PRINTERS FOR BESPOKE CREATIVITY.

Effortless Precision and Versatility in Every Print.

Epson's SC-F130, SC-F530, and SC-F531 printers combine advanced dye-sublimation technology with a compact design to fit any workspace. Whether working with A4-sized media or larger rolls up to 24 inches, these printers deliver sharp, vibrant prints with minimal downtime. Backed by genuine Epson inks, transfer materials, and intuitive software, they empower small to mid sized businesses to produce customised products with ease and confidence.

ENGINEERED FOR good

EPSON ULTRA CHROME
DS INK

Superior Print Quality

Using genuine dye-sub ink, the SC-F130/F530/F531 are designed for dye sublimation on both rigid and textile, producing stunning merchandise.

Versatile Media Support

Designed to handle a wide range of media types, offering the flexibility to support diverse business applications with ease and efficiency.

Genuine Warranty

Model-specific Epson warranty included, with optional CoverPlus plans for enhanced, long-term protection.

Compact Power for Custom Creations

Epson's SC-F130, F530, and F531 dye sublimation printers are built for small businesses ready to enter the world of personalised products. These affordable, space-saving printers make it easy to create high-quality, short-run items like mugs, tote bags, aprons, and cushions – on demand and on-site. Perfect for producing custom gifts and promotional goods with minimal setup and maximum flexibility.

Boost Your Productivity With Dye Sublimation Printhead

Experience swift and reliable short-run, dye sublimation printing with our state-of-the-art printhead technology.

Superior Print Quality

Achieve high-quality, consistent, and vibrant colours with Epson's PrecisionCore technology. Print using genuine dye-sublimation ink and enjoy reliable results every time, thanks to a dedicated lookup table (LUT) designed specifically for promotional goods and rigid substrates.

High-speed Printing

Deliver outstanding print quality at impressive speeds, with print resolution of up to 1,200 × 2,400 dpi* – ideal for meeting high-demand production needs efficiently.

Sturdy and Reliable

By pairing our PrecisionCore print chip with co-developed Epson UltraChrome DS ink technology, class-grade reliability is achieved. Low machine maintenance and minimal downtime allows you to maximise savings with a printer designed specifically for the purpose of dye sublimation printing.

Genuine Total Solution for Businesses

As an end-to-end printing solution provider, Epson's dye sublimation printers work seamlessly with the Epson printer driver, genuine UltraChrome DS inks, and Genuine DS Transfer Paper – delivering enhanced productivity along with outstanding quality, performance, and reliability. Monitor print jobs effortlessly with the Epson Cloud Solution PORT platform.

The Future of Dye Sublimation Printing

As the industry continues to evolve, the move from analogue to digital printing is accelerating—driven by the need for flexibility, speed, and sustainability. Dye sublimation is at the forefront of this transformation, enabling high-quality, small-batch production with intricate design capabilities. Looking ahead, Epson's advanced digital textile printers are engineered to meet tomorrow's demands, delivering precision, efficiency, and eco-conscious performance to keep your business future-ready in an increasingly dynamic market.

Epson Edge Print PRO (RIP)

Only for SC-F530/F531

Epson's textile printers integrate seamlessly with RIP software, enabling instant printing with no data spooling delays. Easy to use, even for beginners, it reduces misprints, setup time, and total cost of ownership. The software also supports Epson's advanced image processing technologies, ensuring exceptional print quality with smooth gradations and minimal graininess.
