

**CREATING A FULL SPECTRUM  
OF POSSIBILITIES FOR  
BUSINESS.**

# We Understand Business

In today's fast-paced, high-pressure world of business, we understand you need technology that delivers results. That helps people work more efficiently. That gives the right image. That performs perfectly whenever you need it.

With budgets squeezed, we know that value for money is paramount. Epson delivers on every count. Our smart technology will change the way you work, saving you time and money, and freeing you up to focus on your core business.

## Cost-effective

Beat budget restrictions with products that are cost-effective to buy and maintain.

## Productivity

Cutting-edge technology helps you connect, collaborate and stay competitive.

## Greener

Engineered to be kinder to the environment and streamline costs on the way.

## Confidential

Keep important data confidential with secure printing, scanning and archiving.

Our award-winning WorkForce Pro printers are fast, economical and ecological, keeping pace with the busiest business environments.

Capture, convert and distribute scanned information quickly and securely using our high-speed business scanners.

We're the world's number one for projectors<sup>1</sup>. Easy to set up and use, they're ideal for delivering memorable presentations.

# All You Need to Work Efficiently

## Award-Winning Results

Our award-winning WorkForce Pro printers are fast, economical and ecological, providing high-quality results and less downtime.

## Make a Big Impression

Our large-format printers produce high-quality photographic prints on demand, producing impressive results for in-house posters.

## Secure Business Systems

Save time and money by storing and archiving confidential information on tamper-proof DVDs, without the need to rewrite for up to 100 years.

## Capture Attention

Deliver powerful, high-quality presentations using our installation projectors, which have low maintenance and guarantee consistent performance.

## Print Far More, Pay Less

Get high-quality prints at low cost with an Epson ink tank system printer. Reduce downtime and mess with its high capacity ink tank and easy-to-refill ink bottles.

## Scanning Made Simple

Our document scanners are high speed with 1-pass duplex capability and are capable of saving output to various locations, such as attaching to email or saving to cloud storage services.

## Organise the Office

Produce durable, long-lasting labels in a wide range of tapes and text colours to improve organisation. Ideal for stock management, filing and tags.

## Present on the Move

Our lightweight, portable projectors are ultra-mobile and easy to set up. Ideal if you're moving from room to room or going to a meeting outside the office.

# Cost-Effective Business

**Our innovative technology combines competitive prices with money-saving features, ensuring you can cut costs without compromising on quality.**

In the current climate of squeezed budgets, technology for business must be ultra cost-effective, not just at the point of purchase, but throughout the product's lifetime.

That's why we have put so much thought into every aspect of our range, providing you with technology that can significantly cut your paper, print and energy bills. Get a lot more for a lot less, with products that are built for business.

## Spend your budget wisely

Take control of your business' printing costs with Epson Device Admin. With our all-inclusive printing service:

- You only pay for the pages you print.
- You can choose the frequencies of the reports.
- You have the convenience of full supplies management.

## Low total cost of ownership

We've taken everything into account – purchase price, consumables and maintenance – to keep the lifetime cost of your technology low.

- Epson **projectors** offer superb quality together with an affordable purchase price, easy and flexible installation, and low maintenance costs.
- Epson **ink tank system printers** help you reduce your printing costs significantly as they offer the lowest printing costs in the region<sup>2</sup>.

## Keep a check on costs

We've developed special software and accounting tools to help you monitor and manage technology costs.

- Our EasyMP software allows you to control and monitor every projector across a network. It provides an alert when lamps need to be replaced. Additionally, it enables you to switch off units remotely, saving you time, power and money.
- The Epson large format printer Accounting Tool helps you track job costs for your **SureColor™ SC-T Series**. At the click of a button, it will find the printers connected to your network and tell you how much different print jobs are costing.

## Save on outsourcing

Save time and money by printing in-house instead of sending work out to external contractors.

- Create point-of-purchase displays using the **SureColor SC-T Series**.
- Produce high-quality reports using **WorkForce Pro printers**.
- Archive important data with the **PP-100II Discproducer™**. It has an efficient six-colour ink system and will produce more than 1,000 fully printed discs using just one set of inks.

# Improve Productivity

Epson technology can change the way you do business, helping you work more productively, sell more effectively and connect more easily.

In a busy office environment, technology should simplify everyday tasks and make working life easier.

Epson products work as hard as you do. Intuitive to use and requiring minimal training, they'll ensure your documents and presentations stand out, helping you get results where it counts.

## Hassle-free equipment

Let Epson get on with the job – and you can get on with yours. More reliable technology means less downtime, so it's ready when you need it.

- High-capacity ink cartridges of the **WorkForce Pro printers** are incredibly easy to replace. Simply push and click to remove and replace cartridges. The ink packs on the WorkForce Pro WF-R8591 are also easy to replace and allow you to print up to an impressive 75,000 pages.
- Epson **ink tank system printers** are equipped with integrated ultra-high capacity ink tanks that reduce downtime caused by consumable replacements. The tanks can be refilled easily, without causing any mess.
- Set up the **Discproducer** and it will publish 30 CDs or 15 DVDs an hour, unattended. An internal robotic arm ensures accuracy.
- EasyMP software allows you to monitor and control all **projectors** across a network.

## Do business anywhere

When your staff are mobile, your technology needs to be equally flexible. Epson innovations free up your staff to work more efficiently – wherever they are.

- With Epson Connect<sup>3</sup>, you can now print to an Epson Printer from your mobile device by using an app or simply by sending an email to it. Scanning of urgent documents can also be done via the Epson iPrint app.
- Email Print enables you to print to your printer simply by sending an email directly to it.
- With Scan-to-Cloud<sup>3</sup>, you can share your scanned documents via email or through the cloud.
- The iProjection App allows you to project wirelessly from your smartphone or tablet<sup>4</sup>.
- With our **LabelWorks™** range, you can use the Epson iLabel App to design, create and print durable labels directly from your smartphone or tablet<sup>5</sup>.

## Make an impact

When you're putting together a pitch document or sales presentation, you need technology that produces stunning results, each and every time.

- Print impressive documents on the **WorkForce Pro Series** with DURABrite™ Ultra/Pro inks – for long-lasting, high-impact colours.
- Engage your audience with pin-sharp, vivid projections. Our **projectors** have an exceptionally high Colour Light Output, producing colours that are up to three times brighter than 1-chip projectors<sup>6</sup>.

## Share ideas

Let our interactive meeting room system improve the quality of your meetings and brainstorm. The **EB-1400Wi Series** encourages everyone to participate.

- The system combines the benefits of ultra-short-throw projectors, interactive whiteboards and paper flipcharts.
- Interactive pen and finger-touch make it easy for colleagues to annotate a presentation together and collaborate.
- Afterwards, it's simple to save the results to a USB, to a network location or to share via email.

## Simplify workflow

Let Epson technology help your working day run more smoothly and efficiently.

- Boost productivity with Document Capture Pro software, which allows you to scan and quickly share documents via email and Scan-to-Cloud services. It has an intuitive interface and integrates with leading third-party Document Management Systems and Cloud services.
- Networking options, together with buttons with customisable job settings, make scanning on Epson's document scanners a breeze.
- Use portable **LabelWorks** to create and print labels on the move without a PC. Create labels with more functionality using LabelWorks software for PC or iLabel App<sup>5</sup> for mobile devices.

# Greener Business

Emissions and carbon footprint are becoming increasingly pressing concerns in the business world.

Whatever business you're in, it's likely that the government, your shareholders, customers and staff are all keen to know you're upholding good environmental practice.

At Epson, it's a point of principle to develop clean technologies, and to design products that consume less power. We have engineered our products to be cleaner and greener, so we can help you meet your environmental targets – and save money at the same time.

## Cut power, cut consumption

We're constantly looking for new ways to cut power consumption.

- Our **WorkForce Pro printers** require no warm-up time, unlike lasers. This "no-heat" technology consumes less power compared to laser printers.
- Our **projectors** are packed with eco-friendly features, including an eco mode, which reduces the lamp wattage. Meanwhile, EasyMP software allows you to monitor and control all projectors across a network.
- Epson **scanners** come with energy efficient ReadyScan LED technology that is environmentally friendly and does not require any warm-up time.

## Better working environment

Our **WorkForce Pro printers** use innovative technology to help you meet your green compliance targets.

- Epson's clean, no heat technology produces no ozone gas or any fan noise during or after printing.
- The WorkForce Pro Series occupies a smaller footprint as no ventilation space is needed around the printer.
- Also, WorkForce Pro printers do not release harmful particles when printing, thereby keeping your working environment clean and healthy.

## Less energy, great results

Our **projectors** use highly efficient 3LCD technology, producing true to life colours that are up to three times brighter than 1-chip projectors<sup>6</sup> enabling you to develop maximum visual impact with your presentations.

## Increase efficiency

It's easy to be green when a printer makes smart choices for you.

- With built-in automatic duplex functionality for printing and scanning, the **WorkForce Pro printers** can reduce paper wastage and increase efficiency.
- High capacity ink cartridges help maximise savings and reduce downtime.

# Strictly Confidential

**Businesses everywhere are obliged to take confidentiality and data protection extremely seriously. Let us help you protect your data and your reputation.**

With the exponential growth in electronic data flowing into and out of organisations, it's becoming increasingly important to find ways to safeguard confidential information.

Epson has a variety of cutting-edge products and services that can help you share, archive and store your data securely – and make sure it stays in safe hands.

## Confidential printing

In any business, a significant amount of printed material will contain confidential information, from people's personal details to sensitive company plans and proposals.

- **WorkForce Pro printers** enable confidential printing via a secure PIN code. They also support the latest security and encryption protocols, including IPSEC and IEEE802.1x.

## Password-protected

Our business **scanners** combined with Document Capture Pro software, offer multiple security options.

- Confidential documents can be saved as secured PDFs that require passwords to access.
- Prevent unauthorised usage of the scanner by securing it with a password.
- Users can set a pre-defined list of destinations to minimise accidental sending of confidential documents to the wrong recipient.
- Centralise your scanner fleet for easier management and control.

## Secure data storage

We lead the way in archiving confidential data. Many businesses choose **Discproducers** as they're reliable, secure and easy to use.

- Quickly archive large amounts of data and protect it from loss and damage.
- Get extra security for highly confidential data with a door lock on the PP-100N, preventing unauthorised opening of the door or removal of media.

1. Survey conducted by Futuresource Consulting Limited for the period from 2001 to 2014.
2. As of 10 April 2015, the Epson L-series offers users the lowest cost per page (black and colour combined) for any printer using genuine branded supplies from its own manufacturer. This is based on the MSRP listed on the manufacturers' websites in 5 major ASEAN markets.
3. Epson iPrint requires a wireless connection. Epson Email Print, Epson Remote Print Driver and Epson Scan-to-Cloud require a connection to the internet. For more information, supported languages and devices, please visit [www.epson.com.sg/connect](http://www.epson.com.sg/connect)

4. iProjection App available on Android and iOS devices.
5. Compatible with LabelWorks and LW-1000P. Download the Epson iLabel App from the Apple App Store and Google Play Store.
6. Compared against similarly-priced leading 1-chip DLP® business and education projectors based on NPD data from July 2011 through June 2012 (available from [www.npd.com](http://www.npd.com)). Colour brightness (colour light output) measured in accordance with IDMS 15.4.
