

Creating Special Labels

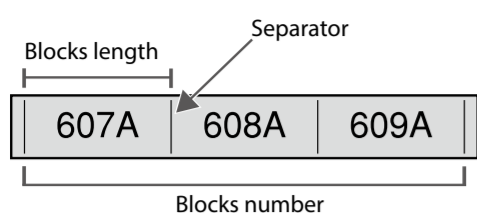

Creating Labels for Patch Panel

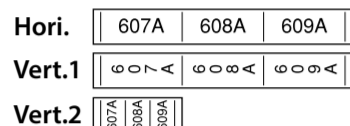

You can create the optimal labels for your patch panel by setting the label length and number of blocks.

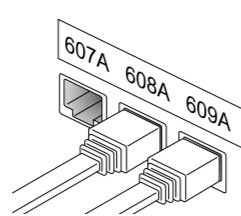

Ex

1. Press **[Block]**.
2. Select the length type with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Blocks".
Blocks: Sets the length by block length.
Label: Sets the length by label length.
3. Enter the blocks length and then press **[OK]**.
Setting range: 0.25 to 30 cm
4. Enter the blocks number and then press **[OK]**.
In this example, we will enter "3".
Setting range: 1 to 50
5. Select the type of separator with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Line".
6. Select the orientation with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Hori."

7. Enter the text.
You can create labels with sequence numbers.
For details, see "Creating Labels with Block Sequence Numbers Assigned"
8. Press **[Print]**.

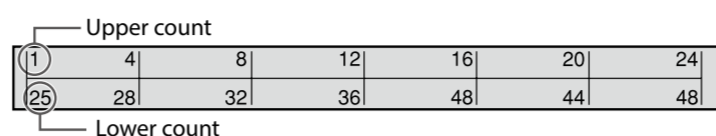

Creating Labels for Punch Block

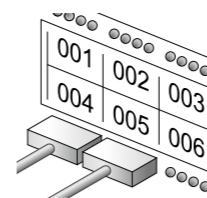

You can create labels to identify at a glance the numbers for the wires or pins connected to a punch block.

Ex

1. Press **[Block]**.
2. Select the blocks type with **[<] / [>]** and then press **[OK]**.
In this example, we will select "4pairs".
Blank: Creates a table of two rows and one column.
3. Select the text type with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Pins".
4. Enter the upper count and then press **[OK]**.
In this example, we will enter "1".
5. Enter the lower count and then press **[OK]**.
In this example, "25" is entered automatically.
6. Enter the label length and then press **[OK]**.
Setting range: 1 to 99.9 cm
7. Press **[Print]**.

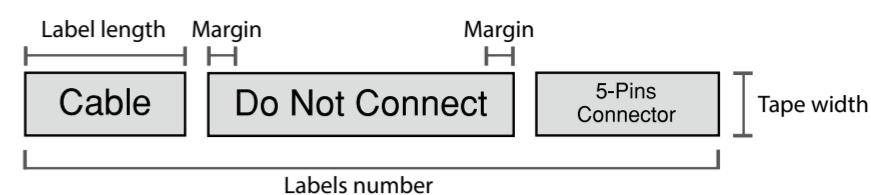

Creating Multiple Labels at Once

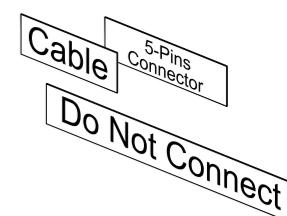

You can create many labels at once.

Ex

1. Press **[Up] + [Block]**.
2. Select the label length with **[<] / [>]** and then press **[OK]**.
Auto: Automatically adjusts the label length depending on the length of text.
Set: Sets the label length.
Setting range: 1 to 99.9 cm
3. Enter the labels number and then press **[OK]**.
In this example, we will enter "3".
4. Select the type of margins with **[<] / [>]** and then press **[OK]**.
5. Select the orientation with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Hori."
6. Enter "Cable" and then press **[Enter]**.
Similarly for other labels, enter text and press **[Enter]**.
7. Press **[Print]**.

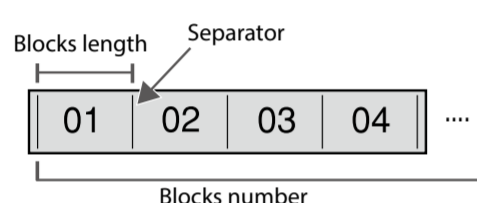

Creating Labels for Block-66

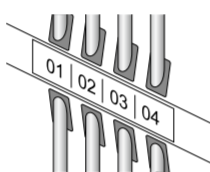

You can create labels for Block-66 so that large numbers of connectors can easily be identified.

Ex

1. Press **[Up] + [Block]**.
2. Select the length type with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Blocks".
Blocks: Sets the length by block length.
Label: Sets the length by label length.
3. Enter the blocks length and then press **[OK]**.
Setting range: 0.25 to 30 cm
4. Enter the blocks number and then press **[OK]**.
In this example, we will enter "4".
Setting range: 1 to 50
5. Select the type of separator with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Line".
6. Select the orientation with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Hori."
7. Enter the text.
You can create labels with sequence numbers.
For details, see "Creating Labels with Block Sequence Numbers Assigned"
8. Press **[Print]**.

Creating Labels to Wrap Around Cable

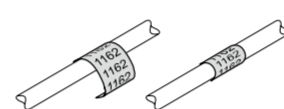

You can repeatedly print text so that it can be seen regardless of the angle from which the cable is viewed.

Ex

1. Press **[Block]**.
2. Select the length type with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Length".
Dia: Sets the length by cable diameter. (Setting range: 0.25 to 15 cm)
Length: Sets the length by label length.
3. Enter the label length and then press **[OK]**.
Setting range: 1 to 99.9cm
4. Select On or Off of repeat text with **[<] / [>]** and then press **[OK]**.
In this example, we will select "On".
5. Select the type of margins with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Long".
6. Enter the text.
7. Press **[Print]**.

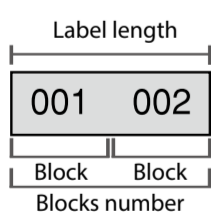

Creating Labels for Faceplate

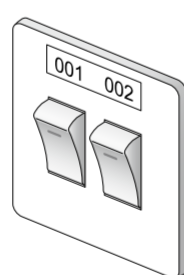

Text can be automatically placed at the center of a block. This enables you to easily create a label suitable for the size of the area where it will be affixed.

Ex

1. Press **[Block]**.
2. Enter the label length and then press **[OK]**.
Setting range: 1 to 99.9 cm
3. Enter the blocks number and then press **[OK]**.
In this example, we will enter "2".
Setting range: 1 to 50
4. Select the orientation with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Hori."
5. Enter the text.
6. Press **[Print]**.

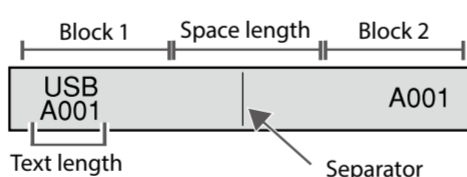

Creating Labels to Wrap around Cable like a Flag

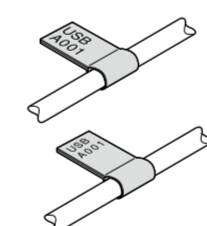

This label is useful for differentiating cables because the flag portion of the label wrapped around the cable is easy to see.

Ex

1. Press **[Up] + [Block]**.
2. Select the setting method of space length with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Length".
Dia: Sets the length by cable diameter. (Setting range: 0.25 to 15 cm)
Length: Sets the length by space length.
3. Enter the space length and then press **[OK]**.
Setting range: 0.25 to 30 cm
4. Enter the text length and then press **[OK]**.
Setting range: 0.25 to 30cm
5. Select the type of separator with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Line".
6. Select the orientation with **[<] / [>]** and then press **[OK]**.
In this example, we will select "Hori.2".
7. Enter the text of block 1.
8. Enter the text of block 2.
9. Press **[Print]**.

Creating Labels with Block Sequence Numbers Assigned

You can assign sequential numbers to blocks. Up to four digits including numbers (0 to 9) and alphabet letters (a to z and A to Z) can be entered.

Ex

Create the blocks in advance. In this example, we have created three blocks.

1. Press **[Up] + [Block]**.
2. Enter the start value of the sequential numbers and then press **[OK]**.
In this example, we will enter "CN01".
Sequential numbers are automatically assigned to block 2 and block 3.
3. Select the number of repetition with **[<] / [>]** and then press **[OK]**.
In this example, we will select "1 time".
4. Press **[Print]**.

Creating Labels with Symbol

1. Press **[Symbol]**.
2. Select a category with **[<] / [>]** and press **[OK]**.
3. Select a symbol with **[<] / [>]** and press **[OK]**.
4. Press **[Print]**.

MEMO

- For available symbols, see "Symbol List" on the separate sheet.
- If you transfer your original symbols from your computer, the symbols are saved in the "Downloaded" category. For more details, see LW-Z700 User's Guide (PDF version), which is available from your local Epson website.

Creating Barcode Labels

MEMO

- You may not be able to add a barcode depending on the label type you create.
- Only up to two barcodes can be inserted in one label.

Supported barcode types:

EAN-8, EAN-13, CODE128, CODE39, QR CODE, ITF, CODABAR, UPC-A, UPC-E

1. Press **[Barcode]**.
2. Select an item with **[<] / [>]** and press **[OK]**.
Move on to the next options until the setting is complete.
3. Enter the alphanumeric characters for the barcode and then press **[OK]**.
4. Press **[Print]**.

Customizing Labels

Setting the Format and Style (Edit menu)

You can decorate your label by setting the following.

- Press .
A new block is started from the character next to the cursor.

Saving Frequently Used Labels

By saving frequently used labels, you will be able to easily recall and print from them next time. Up to 100 labels can be saved.

Saving a label

- Press .
- Select "Save" with and press .
- Select a registration number with or the number keys and then press .
The registration confirmation screen appears.
- Confirm the registration number and then press .

Recall the saved label

- Press .
- Select "Recall" with and press .
- Select a registration number with or the number keys and then press .
The recall confirmation screen appears.
- Confirm the registration number and then press .

Deleting the saved label

- Press .
- Select "Delete" with and press .
- Select a registration number with or the number keys and then press .
The deletion confirmation screen appears.
- Confirm the registration number and then press .

Utilizing Print Functions

Enlarge print

You can create a label that is larger than the width of a single label. Print the created content separately on multiple labels and then put them together to use as a single label.

- Press + .
- Select "Enlarge print" with and press .
- Select "*2size" with and press .
- Select "2/2" with and press .
- Select "Start print?" with and press .
Printing starts.

MEMO
The function remains enabled even after printing. To disable the function, select "Off".

Mirror print

- Press + .
- Select "Mirror print" with and press .
- Select "On" with and press .
- Select "Start print?" with and press .
Printing starts.

MEMO
The function remains enabled even after printing. To disable the function, select "Off".

Print copies

- Press + .
- Select "Print copies" with and press .
- Enter the number of print copies and then press .
- Select "Start print?" with and press .
Printing starts.

MEMO
The function remains enabled even after printing. To disable the function, set the number of print copies to "1".

Changing the Printer Settings

Auto cut

Auto cut:
Sets whether or not to cut automatically.

Half cut:
When "Auto cut" is set to "On", the function "Half cut" for precutting just the label part to make the backing paper easy to peel off can be set.

Print density

Sets the print density.

Drop stop

This function is useful for affixing consecutively printed labels one at a time. Select "On" to avoid a printed label from dropping. A printed label stays at the tape eject slot. When printing multiple copies, printing of the second or later labels starts each time you remove a printed label. This function is only available when the label length is 28 mm or more, "Auto cut" is set to "On", and "Half cut" is set to "Off".

Backlight

Sets the display backlight to On or Off.

Language

You can select the language shown on the display from the following:
Dansk, Deutsch, English, Español, Français, Italiano, Nederlands, Norsk, Português-Br, Português-EU, Suomi, Svenska, Türkçe

inch:cm

The unit of length used to indicate the label size can be switched between inch and cm.

MEMO
Version: To make sure the version number that has been installed in the printer.

Procedure for setting

- Press + .
- Select the desired function with and press .
- Select the desired item with and press .
