WorkForce WF-7111

WorkForce WF-7611

ENGINEERED FOR BUSINESS

Enhanced Productivity

Increase efficiency at print speeds of up to 18ipm with Epson's PrecisionCore™ technology and reduce paper wastage with the built-in automatic duplexer.

Affordable Laser-like Quality

Achieve cost efficiency with high-yield cartridges and laser-like quality prints with Epson DURABrite™ Ultra inks.

Ease of Use

Operate the WorkForce printers with ease using the bulit-in LCD screens.

The WF-7111 and WF-7611 not only feature blazing print speeds of up to 18ipm, they are also able to produce print sizes up to A3+, suitable for quality documents such as charts and spreadsheets. With built-in networking and other convenient features, you'll be set to keep your business' productivity at its peak.

Enhanced Productivity

High Speed Printing

Enjoy default print speeds of up to 18ipm for black and 10ipm for colour, along with draft print speeds of up to 32ppm for black and 20ppm for colour with the Epson PrecisionCore™ printheads.

The breakthrough PrecisionCore™ technology is equipped with versatile, high-speed solutions for commercial, industrial and office printing. Offering a vast improvement from the conventional piezo printheads, this technology delivers professional output quality at blazing speeds.

Print up to A3+

Support borderless printing up to A3+ with special media.

Automatic Duplex Printing*

Both printers support automatic duplex printing up to 8.7ipm, reducing paper wastages.

^{*}Automatic duplex printing supported up to A3 size

Duplex Automatic Document Feeder

The WF-7611 is equipped with a 35-sheets duplex ADF unit for convenient scanning and copying of double-sided documents.

Affordable Laser-like Quality

With an excellent print resolution of up to 4800 x 2400 dpi, you can expect great details in all your prints. The all-purpose DURABrite Ultra Ink ensures the precise quality of your prints, and

its water, smudge, and fade resistant nature helps your prints last. On top of that, its instant drying formula also makes it ideal for double-sided printing.

The new Epson 188 inks allow printing of up to 2,200 black and 1,100 colour prints. This minimises downtime and gives you the ability to print more at a lower cost.

Ease of Use

LCD Screen

Experience easy setup and PC-less operation with a 2.2" Mono LCD on the WF-7111 and a 4.3" Colour touch screen on the WF-7611.

Dual 250 Sheets Input

The WF-7111 comes equipped with dual 250 Sheets Input Tray, allowing you to set two different paper sizes in separate trays, saving your time and effort in printing documents of different sizes.

Card Slots / USB Host Function

The WF-7611 comes with card slots (SD Card & Memory Stick) and USB port for printing, scanning and saving faxes directly using the memory devices.

Single Sheet Rear Feeder

A single sheet feeder on both printers lets you set labels, thick paper, envelopes and special photo paper conveniently.

Printer Security

Panel Admin Mode

Set a password to access and change administrator settings for the printer. This prevents unauthorised users from changing the printer settings.

LDAP Address Book*

Prevent information leaks by using the address book registered in the LDAP server to accurately select recipient E-mail addresses.

*Only available for WF-7611.

Epson Connect Enabled

With Epson Connect, there are many ways to wirelessly print your documents and photos from anywhere in the world:

- Epson iPrint Print from and scan directly to your smart device or online cloud storage services.
- Epson Email Print Print to any Email Print enabled Epson printer from any devices or PC with email access.
- Remote Print Driver Print to a compatible Epson printer anywhere in the world via the Internet using a PC with Remote Print driver or from mobile devices via the Epson iPrint app.
- Scan to Cloud* Share your scans through email or store them online in cloud storage services.

Other mobile solutions:

- Apple[®] AirPrint[™]
- Google Cloud Print™

Support for Epson Connect features varies across products. Please refer to the specifications in this brochure for the list of supported Epson Connect features for your printer. For more information on Epson Connect, please visit http://www.epson.com.sg/connect

*Only available for WF-7611.

Network Connectivity and Standalone Capability

Enjoy connectivity that's perfect for your work environment. Both models are equipped with Ethernet, Wi-Fi and Wi-Fi Direct, making them ideal for office and SOHO environments. The Wi-Fi Direct* connectivity acts like an access point and allows up to 4 devices to simultaneously connect directly to the printer. Creating network settings in your office is also a breeze, with EpsonNet Config.

*Wi-Fi and Wi-Fi Direct cannot be used simultaneously.

PARTNERS IN PERFECTION

EB-W28 Business Projector

A portable 3LCD business projector with up to 3,000 lumens of white and colour brightness, EB-W28 delivers dynamic image quality with a wide range of connectivity features, such as direct USB, HDMI and MHL connectivity.

WorkForce DS-860 Scanner

With speeds of up to 130ipm and Document Capture Pro software, this is an ultra-fast and efficient scanner for document management. It even scans directly to popular cloud services such as Microsoft® SharePoint Server, Evernote® and Google® Docs.

*1 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode, 10 x 15 cm photo print speed when printed on Epson Premium Glossy Photo Paper. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1 Black Text

Black Text and graphics

Photo 4F (4 x 6")

- *2 When printed on Epson Premium Glossy Photo Paper.
- *3 Via custom setting. Otherwise, 3mm top, left, right, bottom.
- *4 Default mode in accordance with ISO7779 for MFPs.
- *5 In accordance with ISO 24711/24712. Actual yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. A variable amount of ink remains in the cartridges after the "replace cartridge" signal. Part of the ink from the first cartridges is used for priming the printer. Ink is used for both printing and printhead maintenance. All inks are used for both black and colour printing.
