A4 DESKTOP UV PRINTER SURECOLOR SC-V1030

EPSON

AMPLIFY CREATIVITY WITH CUSTOMISABLE NOVELTY GOODS.

An edge above the competition with a compact and versatile A4 desktop UV printer.

Designed for the competitive niche market of customisable products, the Epson SureColor SC-V1030 is the perfect printer for businesses prioritising versatility and performance in their A4 desktop UV printing needs. The printer's extensive substrate compatibility, including wood and stainless steel, consistently delivers high-quality prints, providing new opportunities for businesses.

ENGINEERED FOR good

Precise Print Quality

Print confidently even on small customised goods with precise images, crisp text, and thin lines on every print.

Compact Footprint

The SC-V1030's compact front load design enables flexible placement, making it suitable for placement at tight spaces without any obstructions to printing.

Safe Maintenance

The no-ink-contact design facilitates easy and safe maintenance as wiper unit automatically wipes the ink and deposits it into the tank after the UV ink has been cured.

Unleash creativity using the precise and powerful A4 Desktop UV Printer

With the versatility and performance of the SureColor SC-V1030, expand your business opportunities to cater to the growing market for customised novelty gifts.

Fine Print Quality

Achieve impeccable results with fine lines and sharp text on a wide range of compatible substrates. With Epson UltraChrome UV inks, users can expect vibrant outputs in every print.

Note: Jigs are to be purchased separately.

Smart Operation

Auto Height Adjustment

The platen will automatically adapt its height to accommodate substrates that's up to 70mm, ensuring optimal printing performance.

Substrate Handling Capability:

Size	Thickness	Weight
Up to 210x297mm	Up to 70mm	Up to 3kg

Wide Gap Function

The Wide Gap mode improves clarity of text and images on three-dimensional substrates such as golf balls, pens and phone cases.

Flexible Placement

With its compact design, the printer can be placed on desks or workbenches, making monitoring of print jobs easy. The front operation design streamlines maintenance in tight spaces and allows convenient wire-free placement at the rear. To maximise space usage, multiple printers can be placed side-by-side.

Easy Maintenance and Operation

Safe Maintenance

Featuring automatic printhead cleaning function, ink contact is minimised with the wiper unit that cleans and safely deposits cured UV ink into the tank.

Internal Air Circulation

With two built-in air filters that reduces odour, the printer is safe for operation in a closed environment.

Large Display Panel

Effortlessly manage and oversee your print jobs, monitor ink levels, and perform printhead cleaning using the LED display panel. The panel also provides convenient visibility in low-light environments.

Print on a Variety of Substrates

Print directly onto a large variety of substrates including wood, stainless steel, acrylic, plastics, ceramic, and more. Businesses can provide high-value novelty goods that are unique and personalised, offering customised products that are not commonly found.

Epson Cloud Solution PORT

Comprehensive printer fleet management software offering a secure real-time view of production, equipment use, and service details, enhancing efficiency and optimising Epson printing workflows.
