WORLD'S SMALLEST 3LCD LASER PROJECTOR\*

\* Research is done by Futuresource Consulting Limited, for 3LCD laser projectors with brightness of more than 500 lumens (as of 15 May 2019).

## More than a projector

So much more than a high-performance projection device, this sleek performer delivers high-quality images for a breathtaking visual experience. Best of all, its sophisticated design easily blends into any setting.

## More than just a projector

This unique design comes in contrasting white and silver accents or black and copper trimmings. Giving you the ultimate choice in choosing the design that best matches your style.

## Designed to please

The stylish lines and textures ensure it looks and feels at home in any room in the house, effortlessly blending in with its surroundings.

## Stunning images to go

With its slim and lightweight design, this compact projector can be carried easily from room-to-room. Don't try this with your regular TV!

## Brilliant images in any setting

High brightness and remarkable image quality make it easy to enjoy widescreen adventures in any setting—no matter whether the room is dark or bright. Watch your favourite movies and TV shows and enjoy the big screen experience, right at home.

## Bringing entertainment to the next level

Expand your viewing options with this 360-degree projection technology that allows you to watch your favourite shows anywhere, even at the comfort of your bed. So lie back, relax and enjoy!

## Classy White

The combination of a neutral white surface and soft silver accents adds an elegant touch to any room.

## Tailored Black

With a leather-like texture and fine copper accents, this sleek black model delivers fine craftsmanship at its best.

The perfect match for any lifestyle—the choice is yours.
