

DEBUNKING THE MYTHS ABOUT HOME PROJECTORS

MYTH 1

A television is just as good as a projector.

There is less strain on your eyes viewing content from a projector screen, as compared to a television screen, due to a gentler light reflection. You also have the flexibility of having a big screen experience of up to 100-inches in the comfort of your home.

TRUTH

MYTH 4

I need a blank wall.

You could easily purchase a pull-down screen or a portable screen that can be kept away when it is not in use.

TRUTH

MYTH 2

Projectors and its maintenance are expensive.

Depending on your needs, you can choose between laser or lamp projectors, and before you know it, you have your money back from saving all those trips to the cinema with our wallet-friendly home projectors! Also, expensive lamp replacements are a thing of the past. With laser projectors' 20,000 maintenance free hours*, you can indulge in 5-hour movie marathons daily for up to 10 years!

TRUTH

Laser Projectors Have

20000

Maintenance Free Hours*

*For selected models only.

MYTH 5

A dark room is needed.

Thanks to our 3LCD technology, projected contents from Epson home projectors remain brilliant even when viewed in well-lit areas, with equal white and colour brightness of up to 4,000 lumens!

TRUTH

MYTH 3

A projection screen is too big for your home?

You can easily adjust the screen size from 60-inches to up to 100-inches*, by shifting your home projectors at a distance of 0.26m to 3m* from the wall.

TRUTH

^For selected models only.

^Throw distance range is an estimate and will vary depending on model.

MYTH 6

Troublesome installation.

Simply turn on the power and be entertained instantly by the inbuilt smart streaming function* of your projector.

The advantage of Laser Projector

For EH-LS12000B

Next generation laser light source offers improved usability and reliability compared to conventional lamp light sources.

Only 8 seconds to start up from power on¹

Multi-step brightness adjustment

Maintenance-free, no lamp replacement²

Low power consumption is friendly to both household budget and the environment.

Long-life design³

Reduced light leakage concern in theater room environments⁴

¹ Improved compared to previous Epson 3LCD lamp projectors.

² Epson patented unique feedback control technology ensures precise and unmatched shift device movement.

¹ Supports fast-on lighting.

² Use of multiple laser diodes makes light source more reliable than a lamp. Additionally provides a light source life of 20,000 hours.

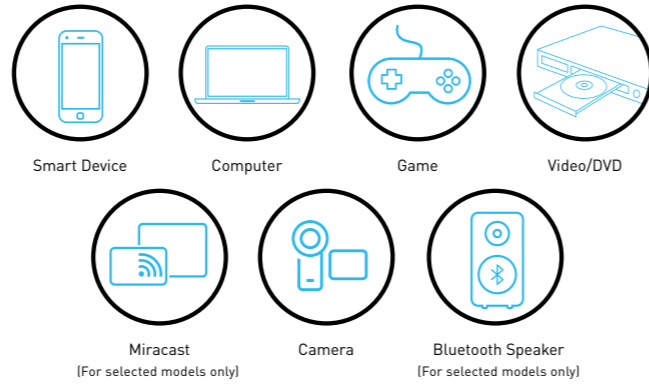

³ Low-temperature light source brings lower impact on peripheral components and increased deterioration resistance.

⁴ Products using laser light sources are designed for better hermetic sealing to minimize light leakage.

OTHER FEATURES

Wide Range of Connectivity

Home entertainment is now made more accessible than ever! Epson's own range of projectors allows integrated support for multiple connection methods including HDMI connection to suit a wide range of entertainment devices.

Built-in Wireless Projection*

Projecting high-contrast, vivid high-definition images smoothly is made possible with the built-in wireless transmission function in Epson's projectors. Conveniently project and enjoy your favourite shows and movies directly from Android and Apple iOS smart devices and PCs via Wi-Fi or Miracast today.

*Selected models. Check the model specification for more information.

Compact Design for Easy Ventilation

The sleek and compact designs of Epson's home entertainment projectors allow you to easily install them even in the narrowest of spaces. With air intake valves positioned at the front, you will no longer have to worry about ventilation.
